Confers With Deputy Premier

Simon, in Cairo, Discusses Foreign Investment for Egypt

By Henry Tanner

CAIRO, July 14 (NYT).— Treasury Secretary William Treasury Simon started three days of talks with Egyptian officials here today on how to make Egypt safe and attractive for U.S. and other foreign capital

Mr. Simon met for more than two hours with Deputy Premier Abdel Aziz Regazy, who explained the structure of the Egyptian economy to him and assured him that the liberalization measures under way were far-reaching, members of Mr. Simon's delegation said.

Specifically, Mr. Hegazy assured the secretary that a new in-vestment law which was published last week was flexible enough to permit foreign companies that want to operate here to repatriate their profits. The law, Mr. Hegazy said according to U.S. officials, makes it possible to setcase basis. Poreign specialists are still in

tle the issue of capital repairiation on an individual, case by-

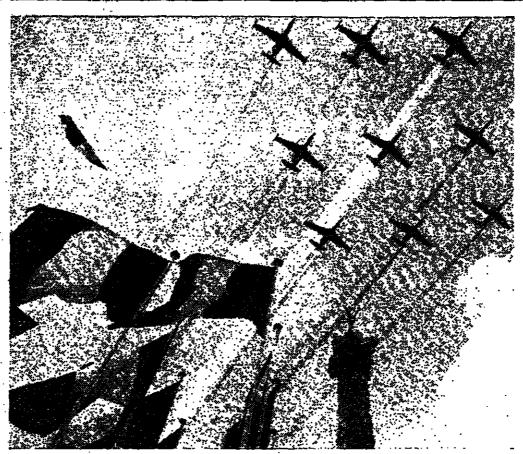

the process of studying the difficult text in Arabic and in the official translation. The specialists had concluded that the law permits repatriation of profits stemming from exports but not those made on sales in Egypt. Basic Feature

A basic feature of the law is that it leaves many issues open for negotiation between the government and foreign companies. This gives the Egyptians strong leverage in favoring companies they feel are most likely to contribute to the country's development and to reject others.

Mr. Simon stressed his belief that Egypt can attract the foreign capital it needs only through further liberalization of its economy. The secretary is under-stood to have made the same point to Mr. Regazy and other cabinet ministers.

Mr. Simon arrived here last

night on the first stop of a Middle East tour that will take (Continued on Page 2, Col. 2)

French planes fly over Bastille tower opening yesterday's parade.

Through Streets Where It All Began

100,000 in Paris Watch Bastille Day Parade

PARIS, July 14 (IHT).—As part of its policy to democratize some institutions, France today staged its traditional Bastille Day parade through the proletarian quarter of the Place de la Bastille instead of along the elegant Champs-Elysées.

The parade of 13,046 men and 216 women, 260 horses and a dozen army guard dogs filed past crowds estimated by the police at 100,000. The crowd was especially large near the Place de la Bastille, where the French Revolution began in 1789 with an attack on the prison near

In a message to mark France's national day, President Valery Giscard d'Estaing said he had changed the site to "bring the people closer to their army, so they can better understand those who defend our liberty and security."

"The holiday must return to the idea of liberty, a holiday of the people," the President said.

The change has caused some controversy, and newspaper polls showed that most Frenchmen opposed it. The only other July 14 parade to be held at the Bastille took place in 1945; the

traditional site since 1919, when the parade was moved from the Bois de Boulogue.

The usual tanks were absent today so the army could save 50,000 gallons of gasoline. The usual fly-past was reduced, although 36 jets roared overhead, six streaming blue, white and red smoke for France's colors.

The loudest applause went to units of firemen, the army dogs, the women and the Foreign Legion, which traditionally closes the parade, its members marching slowly in uniforms inchiding leather aprons.

In Letter to Fulbright

Nixon Goes to Kissinger's Defense on Taps lieved that a rift was developing between Mr. Kissinger and the

White House over the apparent

reluctance of Mr. Nixon or other

White House officials to speak

out more strongly on Mr. Kis-

By Bernard Gwertzman

WASHINGTON, July 14 (NYT). -President Nixon has come to the support of Secretary of State Henry Kissinger with a letter to the Senate Foreign Relations Committee taking full responsibility for the wiretapping of 17 officials and newsmen between 1969 and 1971.

Sen. William Fulbright, chairman of the committee, which has begun an investigation of Mr. Kissinger's role in the wiretap-ping, confirmed yesterday that he had received the letter Friday

He declined to make it public before the rest of the committee had seen it, but he said the letter was a clear and "positive state-ment" by Mr. Nixon justifying the wiretap program on the grounds of national security and stating that he had ordered that the program be instituted to get to the source of news leaks at the

The willingness of Mr. Nixon to come to Mr. Kissinger's support has tended to scotch some of the speculation that was current in Washington after Mr. Kissinger's threat to resign after accusations that he had misled the committee about his role in the wire-

political observers

singer's behalf. Chou Reported To Have Had a

Heart Attack PEKING, July 14 (Reuters). Premier Chou En-lai, who has been ill for more than two months, recently suffered a heart attack, Chinese officials have told a visiting Canadian delegation.

How serious the attack was and when it occurred were not disclosed to the members of the delegation.

Mr. Chou, who is 76 and has been Premier for nearly 25 years, was first known to be ill on May 9 when he failed to make a routine appearance at a state dinner. Officials explained that he was "unwell because of old age."

The letter apparently repeated in essence what Mr. Nixon already has said in taking responsibility for the wiretan pro-

In a statement issued on May

22, 1973, Mr. Nixon, noting that there had been leaks of national security information in 1969, said that "a special program" of wiretaps was instituted. "I authorized this entire program, Mr. Nixon said then, "Each

individual tan was undertaken in accordance with procedures legal at the time and in accord with long-standing precedent." Mr. Kissinger. in public news conferences, as well as during his

confirmation hearings last September before the Foreign Relations Committee, insisted that his role in the wiretapping was to provide the names of members of his National Security Council staff who had access to the information being leaked.

He has also said that some members who had compromising information in their security files were tapped as well as those whose names arose during taps on

The Poreign Relations Committee last September said it found nothing in its inquiry into Mr. Kissinger's activities, including the wiretapping, to ber him as secretary of state.

Evidence released last week by the Judiciary Committee snowed a heavy reliance on materials collected and testimony taken by the Senate committee.

The committee's final report. which documents illegal and imactivities by offici the Nixon re-election committees and the White House, explicitly states that no evidence has been found "suggesting any complicity Republican National Committee or the Democratic National Committee or its principal officers during the presidential campaign of 1972."

In addition, the report noted that "some instances of improper activity" directed at President Nixon's campaign were found. The results of these investigations, however, show no pattern of illegal, improper or unethical activities carried out or condoned by any Democratic aspirant or Democratic campaign organization."

The report royers in detail (Continued on Page 3, Col. o)

Watergate Panel Senators Differ on Guilt, Other Issues

WASHINGTON, July 14 (AP). -Within the framework of a unanimously endorsed final report, the members of the Senate Watergate committee express some widely differing opinions on subjects ranging from where guilt lies to how political campaigns should be reformed. Six of the committee's seven

members included their individual

views near the end of a threevolume report made public yesterday. The only one who did not was Sen. Herman Talmadge, D-Ga, who said he had "nothing to add. In keeping with the findings of the main document, there is no assertion that President Nixon

the Watergate affair itself or the subsequent cover-up. But the committee chairman, Sam Ervin jr., D-N.C., left no doubt that he feels Mr. Nixon bears some responsibility, saying that Watergate was "not invented by enemies of the Nixon administration or even by the news media."

was directly involved in either

"On the contrary," Sen. Ervin wrote, "Watergate was perpetrated upon America by White House and political aides, whom President Nixon himself had entrusted with the management of his campaign for re-election to the presidency."

Sen. Edward Gurney, R-Fla., widely regarded as the President's chief defender among committee members, pointedly declared that the question of who was responsible for putting the Watergate plan into operation and who knew about it and when, is in

"In my opinion there has been no proof gathered by the committee to indicate that the President of the United States participated in or approved of the planning or had advance knowledge of the break-in." Sen. Gurney said. . "The testimony and docu-

ments... also clearly show that there was a conspiracy to cover up the Watergate break-in and that certain persons at the White House were involved in that conspiracy," he said. In my opinion, the evidence gathered by the committee does not indicate that the President had knowledge of the cover-up until March,

Sen. Howard Baker jr., R-Tenn., the committee's vice-chairman and senior Republican, says that questions left unanswered include "what the President or other individuals knew or when they knew it."

The strongest criticism is by Sen. Lowell Weicker jr., R-Conn., whose 142-page individual report, released earlier, calls Watergate "not a whodunit," but "a documented, proven attack on laws. institutions and principles" by

the executive branch. Sen. Baker called the disclosure of the White House taping system the most notable discovery in the committee hearings, adding that "I am not sure I understand why the tape recording facilities were installed, but I find the practice objectionable and not in keeping with the grandeur of the

presidency." He recommended that Congress consider outlawing all such activity without express prior consent of all participants or careful court supervision. Sen. Weicker urged outlawing "all forms of domestic electronic surveillance. uncluding wiretapping."

Sen. Gurney praised the com-(Continued on Page 3, Col. 1)

Amin Says Tanzania, Zambia Back Plan to Invade Uganda

NAIROBI, Kenya, July 14 (Reuters).—President Idi Amin of Uganda has accused Tanzania and Zambia of supporting plans by Milton Obote, the man he overthrew in 1971, to mount an invesion attempt against his country. He has warned that he will not only retaliate but strike deep into Tanzania.

He warned President Julius Nyerere of Tanzania that if he was forced to repulse an invasion by Obote forces from Tanzania, he would hold on to any territory he captured and would not entertain any mediation from

In Dar es Salaam last night. Tanzania denied Gen. Amin's allegations. A government state-ment said that Tanzania adhered strictly to the Mogadishu accord, under which relations are to be normalized between the two countries, and had no plans to attack

Telegram to OAU

Gen. Amin made his accusations in a telegram to President Mohammed Barre of Somalia. current chairman of the Organization of African Unity, who helped negotiate the Mogadishu accord—a five-point peace pledge between Uganda and Tanzania in 1972 after Gen. Amin's forces defeated an attempted invasion by Obote supporters. During the invasion attempt. Ugandan planes bombed Tanzanian areas.

Gen. Amin. according to Kampala radio, warned that Uganda was not as weak as it had been in 1972.

Gen. Amin said Uganda would not strike first against its neighbors, but, if Mr. Nyerere continued to encourage the forces plotting against Uganda, action would be carried inside Tanzania to the towns of Bukoba and Mwanza, on Lake Victoria, and to Tabora-about 100 miles inside Tanzania. Kampala radio said that Gen.

Anun today visited the 2d Simba Suicide Mechanized Regiment at Masaka. The regiment is responsible for defense of the area bordering Tanzania. He told the troops that any

Israel Expects Border Fence To Slow, If Not Stop, Raiders

MALKIYA, Israel. July 14 (NYT).-The dense coils of concertina wire are studded with tiny razor blades and rooted to the ground by iron stakes. The 12-foot-high hurricane fence is alive with electric warning devices and topped with strands of barbed wire.

Both are being strung for 50 miles across the length of Israel's northern frontier as part of a major new defensive system designed to scal the Lebanese border against infiltration by Arab guerrillas.

Work on the eleaborate new fence began two months ago and is expected to take several more weeks to complete. Similar obstacles are already in place along the Syrian and Jordanian borders. The objective, according to Israeli military sources, is to make it as difficult and as dangerous as possible for small guerrilla units to cross from their bases in southern Lebanon into northern Israel. Four such squads have made it in the last three months and 51 Israelis have died in the ensuing attacks on civilian settlements

"We realize it's impossible to seal the border completely." an Israeli major who commands the frontier force near this border kibbutz told a visitor recently. "But this fence will at least slow terrorist down. If the system works properly, we'll be able to kill him before he manages to cut his way through."

The decision to go ahead with the construction of the fence was made shortly after the guerrilla attack on Kiryat Shemona on April 11 in which 18 Israelis were killed. The three guerrillas who carried out that assault simply climbed over the six-foot chainlink fence that existed along the border at the time and made their way into the town before their tracks were discovered.

To accomplish the same thing today, the guerrillas would have to cut their way through as much as 12 yards of densely coiled concertina wire. It is a new variety of anti-personnel wire. imported from Germany, with the cutting edges provided by thousands of tiny razor blade fragments rather than simple

"This wire will at least make a terrorist stop and think before he tries to go through it," the Israeli major sald, gingerly fingering one of the coils being installed near here.

Once through the blade wire, an infiltrator would encounter a 12-foot fence topped with conventional barbed wire. This fence sensitized with an electronic warning system that will trans-

Two Japanese citizens, including

headed by Mr. Park. Mr. Yun, who ran unsuccessfully against Mr. Park for the presidency in 1963 and 1967, said Friday that he was not ashamed of his support of student activists and charged that "the Park regime, which considers patriotic and democratic acts to be against the nation is a cruel regime."

MOSCOW, July 14 (NYT) -

indirect response to a request by the Japanese Foreign Ministry on Friday that the Soviet Union cancel a shelling and bombing exercise scheduled to begin tomorrow in waters near Japan.

Earlier, the Russians had notified Japan that serial bombing practice would be conducted in the Okhotsk Sea and Gulf of Tartary July 15 to Aug. 15, and that artillery practice would be held off the Siberian coast July

The article in Red Star, clearly intended to reduce the moral force of the Japanese complaint, also seemed aimed at encouraging Japanese and Okinawan critics of the American presence on the island to push for the removal of the bases.

Red Square Protester Is Released in Russia

Vladimir Dremlyugs, one of six persons arrested in a 1968 Red Square demonstration, has been camp, dissident sources said.

Castro's Isolation Is Ending

Senate Aide's Visit to Cuba Points Up Crisis in U.S. Policy

By David Binder

The Nixon administration has governments to decide their own lost control of the U.S. policy of maintaining a political and economic quarantine against Cuba. in the opinion of government officials specializing in Latin American affairs

Pat Holt, the staff director of the Sensie Foreign Relations Committee, who met with Premier Fidel Castro in Hayana yesterday, is also understood to believe that Mr. Castro and others in Latin America have begun to determine the pace and direction of Cuba's breakout from hemisphere isolation. This view is reportedly shared by a growing number of Latin American gov-

Mr. Holt, who began his Cuba-trip on June 28, had been trying to get State Department authorion for the visit since 1966. He finally received it on Dec. 7 from Secretary of State Henry

Kissinger. The meetings Mr. Holt had with Premier Castro and other Cuban leaders including Blaz Roca, a member of the governing Com-munist party secretarist and Carlos Rafael Rodriguez, first deputy premier are being viewed here and in Latin America as an important signal, perhaps even a breakthrough.

The course of U.S. policy forlating Cuba began in January, 1961, when the Eisenhower ad-ministration broke diplomatic ties with Havana over what it con-sidered provocations by the Castro government. A yest later, the Organization of American States voted to "exclude Cube from the inter-American system." Wash-ington followed up in February, 1982, with a trade embargo against Cubs and then in March denied entry to products of Cuban

In July, 1964, the Organization of American States, following Washington's policy, voted that member states should break diplomatic and trade ties with Cuba. All but Mexico complied.

As for recent developments, "all kinds of things are happening on the Cubs front," an adminis-tration official observed, "and the administration is on the defen-

Among the "things happening." the Nixon administration official noted, was the inclusion of Cuba among the Latin American counthe South Korean ambassador to tries attending the International Japan were recalled yesterday for Law of the Sea Conference in

In addition. Mexico's president, Luis Echeverria, has begun a tour of seven Latin American comb-tiles, partly with the idea, of pleading Cuba's couse-Mexico has always maintained

diplomatic relations with Cuba. Letely Peru, Argentine and four countries have opened embassies in Cuba Among other countries, Mr. Echeverria is visiting Costa-Rica,

Ecuador and Venezuela, which are believed to be poised to open full-scale relations with Cubs. Panama and Colombia are in that group, too, U.S. officials believe, and are soon to be joined by Guatemala and Honduras. "There is a stampede effect at

the moment." a Washington official said. "Even Chile is reconsidering its stance toward Cuba. The Latins are petrified at not being on the bandwagon. Now, instead of being the had boy on the block as in the 1960s, there is a turnsbout and they are coming to Castro" Mr. Echeverria has stated in

recent news conferences that one of the sims of his Latin American tour is to persuade other hemisphere governments to "lift the blockade against Cuba," that the OAS adopted in 1964.
Administration policy toward
Cuba remains "unchanged." so-

cording to the latest official statements. That policy was made clear also in a letter Mr. Kissinger wrote in December to Sen. William Fulbright, chairman of the Foreign Relations Committee. concerning Mr. Holl's request for permission to go to Havana. Mr. Kissinger said that the State Department agreed "rejuctantly" to validate Mr. Holt's passport after setting out "our continuing assessment that it is important to our national interest and the security of the hemi-Cuba in cooperation with other American republics."

In the opinion of several U.S. officials specializing in Cuban affairs, the turnsbout in hemisphere politics has resulted from factors entirely outside Washington's influence.

ton's influence.

These, they said, included:

Mr. Castro's apparent desire
to be less dependent on the Soviet
Union, which provides Cubs, with
more than \$1 million a day in
assistance and has about 7,080
civilian advisors on the laland, in addition to military advisers.

Nixon Obtains Extension on His Mortgage

WASHINGTON, July 14 (API. Short of cash because of his tax troubles, President Nixon has obtained a six-mouth extension in the due date of the final mortgage payment on his San Glemente, Calli, estate, officials Say.

Mr. Nixon faced a payment of

\$226,860 due tomorrow under the

terms of his agreement to purof Los Angeles. Hut his savings were virtually wiped out earlier this year when the Internal Revenue Service as-sessed him \$432,787 in back taxes, prompting the President's repre-sentatives to search for ways to delay the final mortgage pay.

Under an arrangement being worked out by his attorneys. Mr Mixon is paying \$17,000 in interest plus smaller amounts on the principal and in "interest premiums," and delaying until mid-January the mortgage pay-

Details Undisclosed

After Mr. Nixon reached California Friday night, Press Secretary Rousid Ziegler declined to divulge other details of the ar-rangement, including the amount of the principal that Mr. Nixon had paid and the amount of the interest premium.

He confirmed, however, that the payment arranged at a Friday meeting between the President's California lawyer, Dean Butler, and the mortgage holder centered on payment of the \$17. 000 in interest.

Mr. Butler's office said that the lawyer left for Europe soon after the meeting without commenting on the President's mort gage situation. A similar six-month extension

was obtained by an investment company formed by two of the ient's friends to help him buy the 14-room, Spanish-style

Rate Unchanged

Under the agreement, which was disclosed Friday by official sources, the original mortgage interest rate of 7.5 per cent remains unchanged.

An official familiar with Mr. Nixon's finances said that funds for the interest and other payments would be paid from his personal accounts. In 1969, six months after mov-

ing into the White Hopse, Mr.

Nixon purchased the estate for \$1.5 million. The next year, he sold most of the property to the B. & C. Investment Co. formed by his close friends, Robert Abplanalp and Charles (Bebe) Reboso, for about \$1.25 million.
Mr. Repozo later sold his in terest in the investment company, leaving Mr. Applanalp as the

owner of the acreage surrounding Mr. Nixon's residence. Tax Rise on Florida Estate

MIAMI. July 14 (AP) President Nixon's taxes on his Key Biscayne, Fla., estate will increase by an estimated \$500 this year to \$6,800, Dade County Tax Assessor

The President's new tax bill reflects a 32 per cent increase in the texable value of his prop-"A good part of that increase

was due to improvements he put-into the house. He had a swim-ming pool put in for instance, Mr. Blake said. The assessor said that the in-crease was part of a general realustion of properties throughout Dade County The average in-crease in taxable property value

in the county was 29.7 per cent.

Turkish Leftists Gain Freedom

Under Amnesty ISTANBUL, July 14 (AP). Hymoreds of Turkish intellectuals, imprisoned during a military crackdown on the left a few years ago, were released from

prisons during the weekend, sources said today. The Constitutional Court last week reinstated a clause in the general amnesty law, possed in May, providing for the release of more than 2,000 political prison

The government sponsored amnesty law had excluded political prisoners from its scope More than 45,000 petty criminals benefited from its provisions.

Faceless Greek Regime Seems to Be Adrift Security arrangements must not be jeopardized by offending the

The disovery of oil near the island of Thasos ignited a flurry of exploration in the Aerean and renewed an old feud with Turkey. The eastern part of the sea is sprinkled with Greek islands some only a few miles from the Anatolian landmass. Both countries claim the right to explore for oil in this region and in recent weeks have been staging menacing naval maneuvers. Any real clash could damage NATO, but most diplomats expect the other allies to step in before the

dispute explodes. But despite all these factors, the prospects for change seem slight. Most Greeks are leading fairly comfortable, undisturbed lives. Despite inflation, economic problems have roused few of them to anger. Political liberty and free speech concern mainly the educated elite. There is talk about the rebellion in Portugal, but that happened after 48 years

of repression and almost a gener-ation of war in Africa. The active opponents of the regime are tired and intimidated. Most of them still remember the horrors of the civil war in the 1940s and worry that armed re-sistance would lead not to democracy but to chaos.

13 Bishops Get Posts

ATHENS, July 14 (AP).—The Holy Synod of the Orthodox

Church of Greece yesterday elected 13 bishops to vacant posts only two days after it ousted nine others for alleged opposition to the church leadership. The 12-member synod acted to fill the posts following a disciplinary crisis in which 13 hishops

have been ousted since Novem-

ber. The church is headed by Archbishop Seraphim, who was appointed to the post when the present military regime toppled President George Papadopoulos in November. Church authorities said the ousted bishops had been elected illegally under the

Democrata also are subject to pressure from their peers, and they may find it even more risky to oppose impeachment than it would be for Republicans to support it. A Roper poll two months ago showed that only 5 per cent of Democratic voters say they would vote against a congressman who supported impeachment, while 31 per cent said they would vote against a congressman who opposed it

The growing partisariship within the committee has expressed itself in the periodic morning meetings held by the Republican members of the committee in the office of Rep. Robert McClory of Illinois and in the nightly briefings for Democrats by staff members of the committee.
These 'meetings' give 'members

WASHINGTON, July 14 (AP). head of the House Ways and The Watergate committee also said that Rep. Mills was personally involved in setting up an annearance at an Iowa farm rally that the co-ops financed out of corporate firmes to advance his

> Chairman le Silent It said Rep. Mills's former campaign desirman, Joseph Johnson, a former official of one of the co-ops, had refused of sesting possible self-incrimination.

Rep. Mills has said publicly that he was unaware of what was going on in the "draft-Mills" ign, before he announced himself as an active candidate. The Senate committee chairman, Sen Sam Ervin ir., sent Rep. Mills two letters asking him to submit to an interview about his campaign finances, but Rep. Mills

did not comply, the report said. The report also said Sen, Humphrey's compaign received an apparently (Regal \$25,000 corporate payment for committee mail lists used in his campaign. The money was paid by the largest dairy cooperative, Associated Milk

The report cited evidence that Sen Rumphrey's campaign man-ager, Jack Chestnut, a Minnea-polis attorney, was aware of the use of corporate money and belped arrange it. The report said Mr. Chesiant also invoked guarantees against self-incrimination and refused to testify.

Rebuff by Post Sen. Humphrey was asked to answer questions about the mat-

ter, but sent a letter saying that he did not know anything about it. The same dairy co-op donated

corporate money to Sen. Hum-phrey's 1968 presidential campaign and allegedly did so again in his 1970 Senate race. The report did not deal with these payments because the committee's inquiry was limited to the 1972

presidential election. The committee's investigators found that Sen. Humphrey used \$86,000 in stock and \$23,000 in cash from his own funds in the campaign, and originally said that these donations apparently violated the old federal law against campaign gifts of more than \$5,000 each. However, the final report said this law never had been interpreted to apply toa candidate's use of his own

The report still said that Sen. Humphrey had hidden the use of personal money when he made a voluntary public disclosure of his campaign finances during the primary campaigns, when secret donations were an issue.

No Violation Intended Discussing Sen. McGovern, the final report said that neither his campaign workers nor the corporate creditors who wrote offbad debts had intended to violate the law against corporate campaign donations. It said the law never had been used to cover

such a situation. The report said that President Nixon's campaign received most of the known, illegal corporate donations \$749,000 from a dozen companies.

It said that it found no evidence that Nixon fund-raisers. had specifically asked for illegal corporate money, but it also found that a number of the aides did not seem to care where the money came from and made no and composition of the con-effort to see that it was from a mittee vote will have an effect legal SOUTCE

if the President were a Demo- an opportunity to discuss the evidence and assess testimony within a clearly partisan frame-work A Democrat said that there "an implicit assumption" at the Democratic briefings that the evidence exists to impeach Mr. Nixon, a Republican who attended one of the recent meetings in Rep. McClory's office said that it is customary for GOP congress-ment to remind each other that the case has not been made."

The half-dezen Republicans and three southern Democrats who are considered swing votes on the committee must make their deci-sions in the full knowledge that they risk being considered politi-

"Hell, I know I could be a big here which my own party just by young spainst impeachment," said Rep. Ralisback, who is considered the most crucial GOP vote. Rep. William Cohen of Maine, consiliered the Republican most likely to vote for impeachment, recalls the "tidal wave of pressure when he crossed party lines to support a letter from the committee informing Mr. Nixon that he had failed to comply with a subpoens for the tapes of 42 con-

And Rep. Charles Wiggins of California, a Republican and the most articulate defender of Mr. Nixon on the committee, believes that Republicans will feel a "grass roots retaliation" if they vote for impeachment

Partisan Case

"The only way to have a bi-partisan impeachment vote is to nail Richard Nixon with some thing directly wrong on his part," Rep. Wiggins said, "But the evidence isn't there, so the case bas become partisan and po-

Another Californian, Democrat erome Waldie, believes that people who placed their trust in bipartisanship may have been fooling themselves all along.

"It's always been divided on party lines, said Rep. Waldie, an early advocate of impeach-ment. "It's nonsense to believe that we've become neuters instead of Democrats and Republicans because we serve on the Judiciary

Rep. Waldie believes that the partisanship was concealed in the early stages of the inquiry because the chairman, Rep. Peter Rodino, D-NJ, made numerous concessions-too many, in Rep. Waldie's view to Republicans on such important procedural items as al-lowing White House lawyer James St. Clair to cross-examine witnesses and object to questions by members. When the concession stopped the partisanship on both

The partisanship has been deepened by the long and wearisome ordeal of the impeachment inquiry. The committee starts carly and finishes late. Congressmen spend their even-ings in briefings or reading the evidence and their weekends politicking back home. In the committee room, tempers have shortened and instration has grown over the style of chief counsel John Doar.

Democratic Complaint

"He travels at the pace of the slowest member, talks in a monotone and treats us all like a bunch of retarded law students." complained a Democratic mem-"Some of us would prefer if he both focused and summarized a bit more

But Mr. Doar's problems are far fewer than those faced by the chief Republican counsel, Albert Jenner, who has never won the trist of the GOP minority on the committee.

Mr. Jenner got off to a bad start when he said after his appointment last January that, within some areas, the Presi-dent should be responsible for the actions of aides . . . When it was disclosed subsequently that Mr. Jenner had helped raise funds for Democratic Sen. Adlai Stevenson 3d of Illinois, most

Republicans on the comittee stopped regarding him as their counsel Many of the GOP members now mutter among them-selves and groan audibly when Mr. Jenner asks a question during the proceedings.
Into this situation has stepped

Mr. St. Clair, who has become the Republican advocate to those GOP members openly fighting impeachment. Even the Democrats admire him for his legal style and tough cross-examination, if not for his positions. Best of Both

"He is one hell of an advocate." a GOP admirer on the com-mittee said. "Before the court, he argues that impeachment is really a political matter and not. the business of the court. Before the committee, he discourts the political nature of impeachment and says that Congress must use the standard of a crime. He has the best of both

But Mr. St. Chair's legal skill has not proved sufficient to turn the tide against impeachment within the committee.

Most opponents of impeachment concede privately that an impeachment recommendation is likely to be issued by the committee but they are hopeful of keeping the vote close enough that impeachment can be

beaten in the House. The House minority leader John Rhodes of Arizons, who recently turned down a White House request to take an impeachment headcount in the House, believes that the margin

Two policemen with guns drawn wait yesterday outside U.S. District Court House in Washington where two-convicts had held seven hostages since Thursday. Moments earlier the hostages had escaped the basement cellblock where they were held.

Petersen Saw No Sign of Cover-Up by President

First Watergate Prober Defends Nixon

By David E. Rosenbaum

WASHINGTON, July 14 (NYT).—Henry Petersen, an assistant attorney general who was in charge of the original Watergate investigation, reportedly told the House Judiciary Committee Friday that he "never received any information which involved the President in

Democratic committee memhers who are expected to voic to impeach President Nixon, tended to decount Mr. Petersen's testimony as having come from a man who is still a subordinate of the President,

"Petersen adores Nixon," Rcp. Don Edwards, D-Calif., said of the testimony which defended the actions that the President took after the Watergate scandal The President's Republican sup-

porters said that Mr. Petersen's testimony buttressed Mr. Nixon's Mr Petersen declared that the

President was entirely within his rights when he passed to his principal assistants information that he had heard in confidence after Mr. Petersen had received it from the prosecutors.

'Above All Law' Rep. Joshua Eilberg, D-Pa., said that Mr. Petersen's statepretation of law," adding: "He regards the President as king, above all law."

But Rep. Lawrence Hogan, R-Md. said he thought that Mr. Petersen's argument was a good one. The President Rep. Hogan said, had to challenge his aides with the facts he had learned from Mr. Petersen about their involvement in the Watergate

The edited transcripts of the President's conversations show that on April 16, 1973, Mr. Nixon talked with Mr. Petersen on the telephone and told him: "Anything you tell me, as I think I told you earlier, will not be passed on."

Mr. Petersen responded, "I understand Mr. President," and Mr. Nixon said, "Because I knew the rules of the grand jury."

Mr. Petersen then proceeded to ten the President that Frederick LaRue, a Nixon campaign aide who had raised and distributed money to the Watergate burglars, had begun to testify freely to the prosecutors.

The next morning, the President met with H. R. Haldeman, then his chief of staff, and told him to tell Herbert Kalmbach that LaRue was talking openly with the prosecutors.

Kalmbach, then the President's perronal lawyer had also been involved in passing money to the burglars.

Mr. Petersen reportedly confirmed that the President had mentioned to him the possibility of becoming director of the FBI. but the assistant attorney general said that it was a vague mention and that the President did not offer him the job.

As for the President's sounding

out Judge Matthew Byrne jr., the judge in Daniel Ellsberg's trial, about the FBI job, Mr. Petersen said that he thought the President had not acted improperly. The only possible impropriety on the President's part, Mr. Peterson reportedly testified in the House committee's closed hearing Friday, was Mr. Nixon's initial directive to withhold from the Elisberg trial the miormation that the office of Mr. Ellsberg's former

German Contractor Freed for Ransom

KAISERSLAUTERN, GOIMANY. July 14 (AP) .- A building contractor held four days by kidnappers was freed unbarmed early yesterday when his family paid 100,000 marks (\$40,000) in ransom, police reported.

Heinz Otto Prinz, 47, was re-leased near Karlsruhe an hour

after the ransom money was delivered by a Catholic priest. acting as a "go-between," on a highway 50 miles away, police

by White House agents. helped significantly.

Mr. Elisberg was on trial for conspiracy and theft of documents in connection with the disclosure of the Pentagon papers. Mr. Petersen was called before the House committee on the recommendation of its impeachmentinquiry staff. He was the seventh of nine scheduled witnesses. With all five of the witnesses

roposed by Mr. Nixon's defense lawyer, James St. Clair, having testified, the apparent consensus committee members is that the

House legal counsel.

All were called by Mr. St. Clair to rebut the allegation that Mr. Nixon ordered or sanctioned the payment of \$75,000 to Hunt to keep him from testifying freely.

Hunt Was Considering Suicide At Time of 'Hush-Money' Bid

By Robert L. Jackson

WASHINGTON, July 14 .-Waterpate conspirator Howard Hunt jr. testified a year ago that was mentally depressed and considering suicide at the time he demanded "hush money" from the White House, according to grand jury testimony just re-leased.

An account of events leading up to the March 21, 1973, payment to Hunt of \$75,000 was contained in the House Judiciary Committee's compilation of impeachent evidence.

Hunt, who had previously pleaded guilty in the Watergate break-in, said he asked for a meeting about March 16, 1973. with Paul O'Brien, an attorney for the Nixon re-election committee, because I was within a few days of sentencing." "I was in a very depressed

physical and, certainly, mental condition," Hunt said, according to a transcript of his July 17, 1973, grand jury testimony. "My wife had been killed in December. I was coming up for sentencing very shortly. My financial position was extremely uncertain. I had no idea of what kind of sentence Judge [John] Sirica might mete out."

Contemplating Suicide He added: "I know that at one point I was contemplating sui-

Hunt said he spoke with Mr. O'Brien as "a middleman" who he thought would get word to former Attorney General John Mitchell, Mr. Mitchell still exercised some authority over disbursement of funds although he had resigned as Mr. Nixon's

campaign director. The grand jury transcript that Hunt repeatedly tried to avoid answering questions by prosecutors on whether he had "blackmailed" the White House.
Told that Mr. O'Brien had

testified that Hunt threatened to reveal "seamy things" he did for the White House if his money not forthcoming, Hunt replied:

"I would put it a different way, sir, to the best of my recollection, that I said that the commitments [previous commitments of financial support! had not been kept and accordingly, if I were suddenly to become a very poor man. that I would no longer have options available to me which were currently available." It was disclosed in April that Hunt actually was purchasing \$109,000 in stock at that time.

plane crash. Things Had Been Done' Under further questioning, Hunt told the grand jurors:

"I mentioned to Mr. O'Brien,

apparently using insurance pro-

ceeds from his wife's death in a

en passant, that other things had been done at the White House in the past and my feeling was that if anybody was going to be the recipient of White House largesse, if you will, it should be those who put their necks on the line for those people before." Hunt said the disclosures be was hinting at were the September, 1971, break-in at the office of Daniel Ellsberg's Daychiatrist: his foreery of State Department cables attributing the murder of South Vietnamese Premier Ngo Dinh Diem to de-

After Almost 3 Days of Captivity

7 Hostages Escape 2 Inmates In Washington, D.C., Lockup

-Using a key smuggled to them to take shape at 7:30 a.m. today by authorities, seven hostages escaped today from two convicts who had held them at gunpoint for nearly three days in a cell block at the U.S. Courthouse

The gunmen, Frank Gorham jr. and Robert Jones, who also is known as Otis Wilkerson, remained barricaded in the basement lockup where they had seized eight persons at 2 p.m. Thursday in a bid to win their freedom. The convicts let their eighth

hostage go free before the seven others managed to escape. gunmen had also let 14 other prisoners leave the lockup. The courthouse security chief said that a few hours after the seven got away the gunmen

agreed to surrender in exchange for an immediate transfer to another prison facility. But negotiations wore on, and one source said the sticking point

was a demand by the convicts that two newsmen accompany them to the unnamed prison. Woman Left Behind

woman inmate, one of the prisoners in the lockup when the gunmen took over its control, was left behind with the two as the seven hostages slipped into a rear elevator, activated it with the

smuggled key and made good their escape. The woman prisoner, Almeda Washington, told newsmen by telephone that she had had no opportunity to join the seven in flight because "I was in a dif-ferent area." But she said that

Gorham and Jones had promised "that they will let me go." Tonight, the two gunmen released Miss Washington, who had been in the cellblock when the incident began. She was taken to the women's detention

The drama began Thursday when, according to Deputy Marshal Calvin Mouton, Gorham pull_ ed a concealed 22-caliber pistol and said to a guard: "Don't more

and I won't kill you." He and Jones later acquired several more guns from a locker in the cell-block area. Both men have long criminal records. Jones was involved in a jail revolt in

Following the escape of the hostages in what an official of the U.S. Marshal's Office called a magnificent exercise in collaboration," police and marshals sealed off the building, standing at the ready with bulletproof vests and carrying high-powered

Most of the hostages headed immediately for home and sleep after their bolt to freedom. They included one woman, Mrs. Debra Collins, 24, a Justice Department

secretary. Other Escapces

others, in addition to Colquit, 37, and Joseph Driskell, 57, both deputy marshalls; William Garber, 46, an attorney; John Hurley, 61, an attorney who represented Gorham and Jones. and Ralph Swartz, 38, a Justice

Department auditor. Bill Hall, deputy director of the Marshal's Office, said that the

Watergate Unit's Final Report Unanimously Urges Reforms

(Continued from Page 1) what the committee found in pursuing the investigation of its three main areas—the Watergate break-in and cover-up, campaign "dirty tricks" during the 1972 election and campaign financing.

Weicker Warns Nixon on Defying Supreme Court

WASHINGTON. July 14 (AP).
—Scn. Lowell Weicker ir., R-Conn., said today that, if the Supreme Court orders President Nixon to yield Watergate tapes and Mr. Nixon refuses, he would vote for the President's conviction in a Senate impeachment

"As far as . " concerned, and every other citizen of this country-and that includes the President-when the Supreme Court rules, that's it," Sen. Weicker

Interviewed on the CBS program "Face the Nation," Sen. Weicker, a member of the Senate Watergate committee, said that by defying the high court. Mr. Nixon would place himself "above the law-that's something that nobody can do in this country. Asked whether, under those circumstances, he would vote

to convict the President, Sen.

1st Ship Since 1967 Transits Suez Canal

LONDON, July 14 (Reuters).-

Weicker replied: "Absolutely."

The British Navy minesweeper Maxton today became the first vessel to travel the length of the Suez Canal since 1967, the Ministry of Defense said in London. The ship, which arrived at Suez from Ismailia, had to negotiate around three wrecks which still block the southern end of the canal, closed since the 1967 Middle East war. The Maxton is to conduct a survey in Suez Bay as part of the British contribution toward clearing the

Jackson Says India Failed in 1st Atom Test

By Thomas U'Toole

WASHINGTON, July 14 (WP). Henry Jackson said Friday that India tried unsuccessfully to explode an atomic bomb in Pebruary, three months before it

succeeded_ Sen, Jackson, D-Wash., said that the United States knew of the February test "bu; made no attempt to get them to stop" the successful test in May.

He did not say why the United States should have intervened in the Indian test; although seemingit would be to attempt to stop the spread of nuclear weapons. At the very least, 2 U.S. effort to halt the Indian test would have been seen as a sign that the United States was limily against the spread of atomic

Sen. Jackson made his statement at a Senate hearing on the export of nuclear technology. He said that he learned of earlier Indian attempt reccutly

from independent sources. The U.S. Atomic Energy Commission issued a one-sentence comment late Friday denying any advance knowledge of either the February or the May tests.

Not Surprised Sources outside the AEC said that they were not surprised that India failed on its first attempt to explode an atomic bomb. One source said that the February failure probably meant that In-dia tried to explode a bomb built with the minimum amount of plutonium, presumably something less than 15 pounds of metal. The source said that this would mean India was interested in a sophisticated weapon but also was

interested in conserving its plutonium. "If they just wanted to demonstrate the bomb," the source said. "I find it hard to imagine

why they wouldn't succeed on their first try." Sen, Jackson did not reveal his source for information on the February test failure, but presumably it was the Pentagon, whose detection units could have picked up seismic signals from the high-energy conventional explosive intended to detonate the

Central to the Mideast

While there are contradictions in recent Israeli statements on the problem of the Palestinians—the information minister saying that direct negotiations were possible on terms most Palestinians considered impossible, while the Prime Minister prefers to regard Jordan as the Palestinian surrogatethere seems to be a growing acceptance in Jerusalem of the fact that this is the central problem of the area.

Israel is not alone in this recognition of the chief obstacle to peace. Many other states have done so, in one official or unofficial form, and the Palestine Liberation Organization, headed by Yassir Arafat, has profited thereby. Most Arab countries regard the organization as the Palestinian spokesman; the Caracas conference on law of the sea has granted it observer status. and the Soviet Union is expected to give it official blessing. Even the United States is itself. cautiously taking initiatives in the direction of the Palestinians.

The reason why the Palestinians are looming on the Mideast's clouded horizon is starkly simple. For other Arabs, it can be argued that their national interests are primarily concerned with Israel's boundaries. They have moved, however grudgingly. toward acknowledging the fact of Israel and could, without serious sacrifices in territory or prestige, adapt to that fact. But for the Palestinians, it is the fact itself, the land on which Israel has been built, the state and the society that have been constructed there, that are the issue.

When the United Nations carved Israel out of Palestine in 1948, it was intended to re-Meet some demographic reality and was, in

consequence, a topographical monstrosity. This, of course, is typical of attempts to secure a measure of national justice by drawing lines on maps, from the Polish corridor and Ulster down to the partition of India, and as in all of those instances, good intentions paved a good many acres of the hell that is war. Israel formally accepted its weird boundaries-the Arabs refused to accept Israel and thus enabled that state to redraw the boundaries by force.

Those boundaries are in dispute, and some of the disputes are knotty for more peoples than the Palestinians—the fate of Jerusalem, for example. But beyond that is the far more troublesome question of whether the Arab Palestinians, as a people, are to have their own state; what its borders and character will be, and how individual Palestinians are to be compensated for lands within Israel

It is most unlikely that Israel will be able to settle all of this by an agreement with Jordan, which claims most of what would be included in an independent Palestine. On the other hand, it would not be much of a peace that was based on a Palestinian nation which still hoped to destroy Israel. The latter must be prepared to live with a Palestinian republic, which in turn must be prepared to live with Israel; neither can afford to commit itself to a future of irridentas; both must be ready to cooperate economically and in the suppression of their own extremists. And given the high emotions which each foot of the holy land of Jews, Christians and Moslems inspires, such a solution will require at least another Kis-

Booming Arms Trade

The world economy may be heading for a slump, but the international arms trade is booming. The world market leader in this unsavory competition is the United States which, in the fiscal year that ended last month, sold some \$8.5 billion in arms, almost doubling its sales in a single year. About \$7 billion of the American weapons were sold in the Middle East and Persian Gulf

Other industrial countries are also stepping up their sales. The Soviet Union appears on its way to boosting its arms exports from \$2 billion to \$6 billion. Other Communist countries in Eastern Europe are likely to sell about \$1 billion worth of weapons this year, and the Western European capitalist countries should be good for about

\$3 billion. Various justifications for American partictoation in-and, indeed, leadership of-this arms race have been advanced. On the economic side, the basic argument is that the enormous traffic in arms is good for the United States balance of payments, particularly at a time when the bills for imported oil are rising steeply and when a greater supply of food and other resources is

needed at home to help damp down infla-

singer miracle if it is to be consummated.

This superficial argument ignores the question whether shipment of increasing amounts of sophisticated military hardware to the world's most troubled areas is the only or the best means of dealing with an adverse balance of payments. It would make far more sense, from the standpoint of this country and all those dependent on imported oil, to force down the price of oil, rather than for the United States, France. Britain or the few others who could do so to try to cover their oil bills with ever greater export of lethal weapons to the oil producers and others.

An arms race as the solution to the world's economic imbalances will appear more lunatic as time goes on and simply cannot be a lasting solution. Eventually, if equilibrium is to be restored to the world economy, there must be needed adjustments of commodity prices and currency values, new recycling arrangements for investment, shifts in foreign trade, conservation in use and development of alternative energy resources. Massive arms sales are an extremely hazardous -and limited-stopgap answer to the problem of regaining world economic equilibrium. THE NEW YORK TIMES.

Hazardous Diplomacy

From a foreign policy standpoint, defenders of American arms sales argue that if this country does not supply the arms, other countries-the Soviet Union and France, for example-will do so. There surely is some truth to this argument; but it also may be dangerously self-delusive, depending on the specific circumstances of particular arms sales. Selling huge quantities of sophisticated military equipment to another country-which may decide to exercise its sovereign right to use that equipment-represents an important foreign-policy decision for the United States. If a nation receiving American weapons uses them in warfare with its neighbors, the issue of resupplying that nation quickly arises. The United States may in effect be committed to one side in the war if it does resupply or to the other side if it does not.

These are circumstances in which this risk is consciously taken as an act of deliberate policy, but it appears that major arms deals also are made by the Pentagon on a virtually ad hoc basis without adequate policy

Congress has been insufficiently alert to this danger and careless about arms sales in general. At the week's session of the Senate Appropriations subcommittee dealing with arms sales, not a single member of the committee was present except its chairman. Senator Inouye.

The fundamental answer to the question whether the United States should or should not be leading the quantitative and qualitative world arms race cannot be found in a narrow, nationalist framework. The solution lies in a continuing, determined international effort to check and reverse the steady increase in world armaments and the correspondingly increasing danger of war. But, far from pushing in that direction, powerful interest groups in this and other countries are pressing for ever greater production and shipment of armaments, essentially the most wasteful possible use of the world's social, economic and natural resources.

THE NEW YORK TIMES.

International Opinion

The British Economy

It tries to cure our problems by making us poorer for a start-a lack of growth of one per cent means a loss in Britain's wealth of about £400 million a year. This is the wrong policy and especially at a time when the oil crisis urgently requires an expansion of international trade if we are to avoid a cara-

strophic world slump and immense human disasters in the developing countries. It is sheer folly, as Mr. Wilson said in a notable speech to the Socialist International, to allow world trade to be cut back now by the \$60 billion "tax" that the oil-producing countries have exacted in higher prices.

-From the Sunday Times (London).

Seventy-Five Years Ago

PARIS.—Never has the French national holiday been celebrated in more glorious weather than that of resterday. The sky was blue, the our shone brightly and though the heat was considerable, the air was Iresh and clear throughout the day. Under such propitious conditions the people of Paris enjoyed themselves as only Parisians can and galety and good humor prevailed everywhere. There were street dances and makeshift bars and restau-Fants in every neighborhood of the city.

Fifty Years Ago

July 15, 1924

PARIS-In time the Sahara as a barren waste may become as much a legend of the past as is the Great American Desert which for gured in the books of geography of the youth of fifty years ago. The dream of making the Sonara "blossom as the rose" is now recognised as a potential fact. Water is known to lie within 500 feet of the surface. The idea opens up a marvellous vista of the future extension of the habitat of cirtized man, for the same pion is true for the Australian and Good deserts.

'The Most Obvious Inflation Solution Is to Fire Us... I Hope Nobody Thinks of It!'

This Is the World That Is

By C. L. Sulzberger

PARIS-The two big problems facing the earth today are shortages of food and energy. Failure to meet these problems successfully already has produced catastrophe in the first instance and threat of economic disaster

Famine has shriveled up a wide band of subseharan Africa and South Asia, killing untold thousands. Stalin once said: "A single death is an incident of consequence and pathos but the death of a million is a matter of statistics." Thankfully we are not all Stalins.

Energy is a less dramatically vital subject because its lack does not kill. Yet the whole of modern civilization depends upon it, regardless of a nation's ideology or level of development.

With regard to the first aspect, however, it is necessary to point out that neither Russia nor China show any sign of faltering for lack of fuel-in contrast with the industrialized capitalist West; nor, thanks partially to previous grain imports, do they have current

Need for Reform

By way of contrast, the equivalent of a depression hovers nercousty over other lands (although the word itself is rarely used) a wave of inflation is bewildering the politics and production of the West and threatening to cripple its middle class.

All kinds of unorthodox currency and payments methods. from Eurodollars to special drawing rights, have enormously swollen the amount of money available, thus pressing prices ever upward and making the prospects of monetary reform ever harder.

All this has produced varying reactions and has tended to incite more international rivalry than cooperation. France just con-cluded an enormous bilateral arrangement with Iran which has helped avert an immediate crisis The United States sold \$8.5 billion in arms last year. which is one way of balancing

JOHN H. GARDNER.

'.S. is no good.

of the press.

divided; and it is also in the over, when it does come, its real process of changing shape. The Common Market is increasingly led by a Franco-German axis, at the expense of Britain, which hasn't made up its mind just where it belongs. There is still inadequate cooperation between

the transatlantic allies. Everywhere there are little hints of economic trouble. 'The United States finds it can't oroduce enough enriched uranium to fuel the nuclear reactors it is hawking to foreign lands. Airlines linking Europe and America have raised their fares five times this year a'one. France's famous wine industry is shaken by scandal and overproduction wrecks quality. Celebrated Italian art museums are closing for lack of

funds Meanwhile the Third World's impoverished, backward lands are ever hungrier and poorer, ever more dependent on aid from their wealthier cousins, and increas-ingly aware that less and less

worth is less than its statistical

This global time of troubles comes when many nations were about to change their traditional orientation. Norway is on the verge of basing its future on a petroleum economy because of the North Sea oil discoveries.

Britain is preparing for a similar shift to an industry fueled by oil, not coal, and more continental, less overseas trade. Holland is moving to natural gas for energy. France, followed by West Germany, races to develop its

Atomic electricity is moving ahead relatively more rapidly in Western Europe than the United States. On this side of the Atlantic electric production is nationalized or more centrally controlled and can take decisions more easily for purely economic reasons. Also, there has until now been far greater reliance on

spurring fascination with beaceful storoics. Europe's transitional period

takes time to accomplish. ever. The question is whether the advanced nations will be able to stave off economic collapse, produced by uncontrollable inflation, long enough to adjust to the new roles being sought.

An even bigger question is whether the straitened circumstances of today's prosperous countries will cause them to shut their eyes to the tragedy of the nungry poor around them. If adequate answers are not found —and soon enough—it is logical to expect that those who suffer

the consequences will look with increasing interest at the monolithic Marrist systems. Those, while rigidly controlled with respect to human rights, are at the same time free of today's ominous curses, famine among

the poor, inflation among the rich, diminished energy supplies everyone.

Ehrlichman and Nixon

By James Reston

WASHINGTON. - The conviction of John Ehrlichman for conspiracy and perjury in the case of Daniel Elisberg's psychiatrist-though it will be appealedis regarded here as highly significant for two main reasons

First, it rested in part on the principle that an official is responsible for the acts of his subordinates if he approved in general an illegal plan and even he did not approve of specific acts of burglary under that plan. Second, it sustained Judge Gerhard Gesell's principle that even good motives do not justify illegal acts. "An individual cannot escape criminal liability simply because he sincerely but incorrectly believes that his acts are justified in the name of patriotism, of national security . . ."

he told the jury. The West, despite statesmen's These two points bear directly optimistic communiques, remains on the question of what a govern-

violation.

While I truthfully cannot share

ment official may or may not do and, if sustained, are likely to make White House aides much more cautious in the future about authorizing dubious practices regardless of their motives. And they bear indirectly on the continuing impeachment inquiry in the case of President Nixon,

A Distinction

Here a distinction has to be made between the Ehrlichman case and the Nixon case. Ehrlichman approved in writing a "covert operation" to examine Dr. Fielding's files on Elisberg's psychiatric record, provided that operation was "not traceable." There is no such evidence that President Nixon did the same.

Nevertheless, the Judiciary Committee's transcript of a March 22, 1973, conversation between the President and John Mitchell does suggest evidence that the President did know about the cover-up of illegal acts, or did not take care that the laws are faithfully executed," but conspired to, and did obstruct justice by suggesting that his sides avoid telling the

In that conversation, the President, according to the Judiciary Committee's transcript of the tapes, suggested a flexible policy of giving some information to the Senate Watergate committee "in order to get on with the cover-up

Later, in the same conversation, the long Nixon-Mitchell exchange, which the President per sonally directed should be cut out of the transcripts he made public on April 30, Nixon is quoted as saying (skipping his bernyard language): "I want you all to stonewall it, let them This suspected aides] plead the Fifth Amendment, cover up or snything else, if it'll save the plan, that's the whole thing."

In short, the President, according to this passage, clearly knew in general about the cover-up, which was an obstruction of jus tice and, if tolerated by the President, a violation of his oath to take care that the laws are faithfully executed," and if Ehrlichman's conviction is sustained on the basis of his general approval of a "covert operation." then the President is in even deeper trouble as being a party to a specific crime

The psychological effect of the Ehrlichman conviction on the Judiciary Committee and the members of the House and Senate is probably more important than anything else. The President and his lawyer are saying that to impeach and convict, you have instances behind the dismal to find clear evidence that Nixon record of Mr. Nixon. Those of personally, and intentionally, committed a high crime, prove have been greatly disappointed him unequirocally to be a crock, or, to use the vivid but offensive common phrase, "find the smok-ing gun" in his hands,

In the Ehrlichman case, the judge and jury said something far less than this could be a crime: "You didn't have to catch Ehrlichman rifling Dr. Fielding's files in order to convict him. Or even prove that he said, 'Go. burgle his office and get the files." ". Even if he thought it was okay to mount a "covert operation" just so it wasn't "traceable." Gesell said that was enough to

Key figures in the House Judiciary Committee, like Rep. Thomas Railsback, R-III, have been edging toward the argument that the test of impeachment is not one of finding the "smoking gun" but the wider test of general knowledge of crime, and now the conviction of Ehrlichman has greatly strengthened his position.

Decisive Factor

In their alow and steady way the courts are becoming the decisive factor in this controversy, and the conviction of Ehrlichman is only an example of their power. Within a week or two, before the Judiciary Committee votes whether to bring in articles of impeachment, the Sopreme Court will decide whether the President has to hand over the rest of the tapes and evidence.

That will be the critical moment for all three bearshes of government - judicial, executive and legislative. The first ques-tion lies with the members of the Supreme Court, and it is an ironic accident of history that while they were considering their decision, former Chief Justice Earl Warren died, and the mem-bers of the court marched to the solemn music in the Washington Cathedral, and they listened to the appeals for justice and unity in the republic, and former his-tices Abe Fortes and Arthur Goldberg were with them, and one wondered what they thought.
Later we will hear from Chief

Justice Burger, as we heard from Judge Gesell in the Enrichman case, and in the end of this tragedy, the courts are likely to be decisive on what the Congress

& The New York Times.

New Power Of Jordan's King Hussein

By Evans and Novak

MMAN-King Hussein, whose war against Palestinian guer rillas four years ago made him the black sheep of the Arab world is now on a crest of personal influence, backed by quiet but heavy American support, in the pan-Arab political battle to regain lost territories from Israel including the crucial West Bank of his own kingdom.

While Palestinist nationalist Yassir Arafat insists that only he can represent the "Palestinian people" in the creation of an independent Palestinian state on the Israeli-occupied West Bank it is Hussein who for the moment is in the cat-bird seat.

The doughty King's credentials are becoming clearer every day. As both he and his Prime Min-ister, Zaid Rifal, carefully explain, there is no such thing as one "Palestinian people" but at least four different "Palestinian peoples." - Each has its own special interest and background There is, first, the East Bank Palestine within Bussein's own kingdom of Jordan, some \$00,000 strong including refugees from the West Bank, a very large percentage of whom are now in-tegrated into Jordan's economy. Next is the Palestine on the West Bank of the Jordan River, numbering about 650,000, who have been under Israeli occupation the 1967 war.

And Others

Still another "Paiestinian people" are the 500,000 refugees now living squalid lives in the refugee camps of Syria and Lebanon on a bare subsistence of a few cents a day. Finally, there is the Palestine of Gaza, the small, fertile strip along the Mediterranean between Israel and the Egyptian Sinai Peninsula.

One could also add the Palestine within Israel itself—450,000 Arabs who kept their homes and jobs after Israel's creation as a state 25 years ago and hold Israeli citizenship thut not real equality

with Israeli Jews). It requires no mental gymnastics to perceive that Arafat's claim as "sole representative" of the Palestinian people is ques-tionable. Indeed, that claim rests primarily with those Palestinians whose outrage over Israel's successive territorial acquisitions led them into Arafat's Palestinian Liberation Organization along with other more radical nationalist-terrorist outlits. As a ranking Western ambassador told us. "Wave all been conned into ithinking that the PLO really

does represent the Palestinian people." Here on the East Bank of his kingdom, evidence is available to buttress Hussein's claim to represent more Palestinians than Arafat, even though Hussein himself is not Palestinian. One example Of the more than 50,000 Palestinian nationalists who fought Hussein when he drove the guerrilles out of Jordan in 1970 and 1971, far more than half are now living peacefully here with jobs

and families. A Center

Moreover, Hussein's 1972 proposal to the West Bank Falestinians, now under Israeli occupation, for a United Arab Kingdom—a semi-autonomous West Bank linked to Hussein's East Bank-conforms with centuries of political and economic life in the rich Jordan River valley. During 400 years of Turkish rule, the Jordan River was not a boundary but the natural agricultural center of a unified life on both

its banks The West Bank city of Nablus, for example, was a provincial capital in the Turkish super-which included the East Bank city of Salt under its administrative control. Today, despite 25 years of Israell independence and 7 years of Teraeli occupation of the entire West Bank there is vir-tually no Bast Bank Palestinian family without relatives across

the river on the West Bank. The main purpose of the Geneva conference is to implement Unit-ed Nations Resolution 242, calling simply for return of territories sciently for retain in terminal seized by Israel in 1967, not final political settlement. Since the West Bank was seized from Bussein, not Arafat, Hussein is the man to see in Geneva.

With his semested East Bank

kingdom now in the midst of an economic boom and his relations with both Syrian President Hafer

Assid and Egyptian President Aiwar Sadat turning from sour to sweet, Hussein is preparing for the critical territorial struggle with Israel, ready to convert possible success into a guittering asset for use in deciding the eventual political disposition of the West Bank

Li H. Sybil Hathaway, 91, Dame Of Channel Island of Sark

SARE, Channel Islamis, July the earth to the sun, called the 14 (Reulers).—The Dame of Sark, astronomical unit. The measure-Mrs. Sybil-Hathaway, 91, who had ment is important in the aiming held feudal dominion over this tiny island off France since 1927, died today.

In the 18th century, the island's government was granted special slatus and powers by Queen Elizabeth I and they survived almost intact to the present day. Sark has no income tax no divorce and no serious crime. Cars are banned but farmers among the 600 inhabitants are permitted to import a limited number of tractors.

Dame Sybil defended herself against charges of feudalism by maintaining that she kept the order to keep Sark a place of peace and quiet."
What was good enough for

William the Conqueror is good enough for us," she would say. Dame Sybil's death at her home here was announced by her daughter: Her grandson; Michael Beaumont, is heir to La Seigneurie

In 1940, the Channel Islands-were occupied by the Germans and Dame Sybil was deported to Germany and imprisoned for more than 2 1 2 years. Her husband, Robert Hathaway,

a Yale graduate who served in the Royal Flying Corps in World War I and later became a Bretish subject, died in 1954.

Lord Blackett

LONDON, July 14 (NYT). Lord Blackett. 76, one of Britain's most versatile scientists, died yesterday.

For more than 40 years he didresearch into the secrets of the construction of matter. He won the Nobel Prize for physics in 1948 for his studies of cosmic rays. He was a former president of the Royal Society. During World War II, he did an

analytical study that played a major role in the defeat of the German submarine menace. For this, he was given the highest American civilian award, the Medal of Merit.

Lord Blackett was the suithor

of many scientific papers and books, meluding "Military and Folitical Consequences of Atomic Energy" and "Weapons in East-West Relations." He also pub-ished "Studies of War: Nuclear and Conventional, a reproduction of postwar articles and lectures dealing with general aspects of nuclear war and an account of his wartime experience in the practical field of operations research.

Bonn Plans a Major Tax Cut Next Year to Bar Recession

By Clyde H. Farnsworth

BONN, July 14 (NYT).-West German authorities are planning a significant tax reduction next year to increase the purchasing power of consumers and to check the recessionary forces gathering in Europe's biggest economy.

At West Point, he acquired the

nickname of "Tooey." which

friends and relatives called him

the rest of his life, for no other

reason than that he resembled

an upperclassman named Toohev.

What Bonn does is of importance all over the Continent. The master plan is to spur West German purchases from Common Market partners-particularly France, Italy and Britam-and thereby help these countries earn the money they need to pay for higher-priced oil.

"The tax reduction is a certainty-the only question is how will be distributed." a high Finance Ministry official said. The Social Democratic government under Chancellor Helmut Schmidt wants relief exclusively for lower-income and mediumincome groups, but is having trouble getting this concept upproved in the upper house of narliament, where the Christian Democratic opposition holds a one-vote majority.

Timing Is Vital

Of considerable importance is the timing of the tax cuts, which would pump some \$5 billion into the economy. Some economists fear that any premature fiscal move would jeopardize the antiinflation effort, which has already rielded the best results in the industrialized world. The cost-of-living index rose by

69 per cent at an annual rate in June, but it is expected that it might turn upward in the fall. Prices elsewhere have been rising at twice the West German rate. Yet, policy is already shifting.

The tight credit squeeze of the central bank has been eased in a delicate maneuver aimed at arrested,

preventing recessionary forces from making too much headway while restraining new inflation. As the West Germans work out their package, many sectors of the economy have already fallen into a serious slump. The only major growth point, in fact, has been in exports of industrial goods, a fact that is causing dismay and even alarm in both government circles and the business community.

Foreign Workers Leave

The slump, which has caused unemployment to rise above 25 per cent of the work force—a high figure for West Germanyand which has led to the departure of 100,000 of the 2.5 million foreign workers here, has been felt most strongly by the building industry and the automobile makers,

The construction industry is sperating at less than 60 per cent of capacity and many building companies are financially trou-

Practically all consumer goods are selling slowly, and there has been a marked increase in savings-a \$500-million inflow into bank accounts during the last 12 months, compared with a \$250million outflow during the preceding 12 months.

West Germany's economic

strength is in exports, which makes the country particularly vulnerable to any downswing in world business,

nance Minister Taken Fukuda

Japanese Finance Minister

They said that Mr. Pukuda had discussed his strategy with close political associates and expressed hopes of meeting Premier Kakuer

Tanaka Tuesday. The outcome of that meeting will determine whether Mr. Fukuda quits, they added.

Mr. Tanaka's political posi-tion has suffered two setbacks recently—in the upper house election last Sunday and by the resignation of Deputy Premier Takeo Miki Friday.

Mr. Miki said he was disch-chanted with Mr. Tuneka's poli-tics. He said he wanted to devote his time to "renovating and

modernizing" the party, Sources said Mr. Tanaka and his lieutenauts were holding a scries of meetings to discuss ways to appease dissidents and prevent

the ruling Liberal Democratic party from falling apart.

The sources said disunity at this moment could help the opposition Socialists. Communists and Buddhist parties maneuver

closer to forming a coalition. There also was speculation that if Mr. Fukuda resigus, he and Mr. Miki and their followers may try to form a nucleus for a new

party leadership. Mr. Miki, Foreign Minister Masayoshi Ohira, and Trade Minister Yasuhiro Nakasone

Judge Threatens To Jail Baltimore Strike Leaders

BALTIMORE, July 14 (AP).-A judge yesterday threatened leaders of police and other mumeipal employees with prison sentences unless they ended walkouts by tomorrow. All the strikers are demanding more money. The police union and its leader also face fines totaling \$35,000 a day for ignoring a temporary injunction against the strike by about 580 of the cuy's 2.400 patrolinen. About 3.000 parbage collectors and roads, parks and sewer workers also are on

Bargaining sessions continued in an effort to end the police walkout. It began Thursday night after several days of a job slowdown. There were reports that a settlement was near,

U.S. Pros and Cons

The Great U.S. Debate On the Detente Policy

By Bernard Gwertzman

(NTT). -- In WASHINGTON (NYT).—In the aftermath of the latest Moscow, conference, Secretary of State Henry Kissinger has called for a national debate on the merits of the Nixon administration's detente policy with the Soviet Union,

There seems to be no lack of debaters. The Senate Foreign Relations Committee plans to hold hearings on the subject later this summer and the House Foreign Affairs Committee is winding up its own sessions on

Those who lator detente-a state of international life that has developed in the last three years since President Nixon made his first Moscow journey—say that it contributes to a relaxation of tensions between the world's two most potent nuclear powers. Differences in ideological policies and economic systems will remain as will continual big-power rivalry in other parts of the world, they say But, with nuclear confrontation less likely, both societies have had a chance to become more involved with each other in the various fields of science, culture and trade, providing incentives to both sides to maintain the trend toward nor-

mal relations. The critics of detente here view it at an interlude in the continuing struggle between the free world and Communism brought about by a Soviet desire to lull the West into believing that it now less necessary to keep deienses strong

Trade lucrease

What does the United States get from détente? The advocates see long-term peace as the even-tual dividend. They also envisage increased trade - which has boomed from \$200 million in 1971 to \$1.4 billion in 1973-as boosting the American economy. various other exchanges they regard as having a certain sym-

bolic importance. Those unhappy with detente believe the avoidance of direct confrontation has been caused by the U.S. deterrent. They believe detente should not lead to U.S. arms cuts unless matched closely by similar verified Soviet reductions. They scoff at the trade figures as a disguised form of economic aid to Moscow. They cite the relatively low rates of interest—6 percent or 7 per cent on government-backed Export-Import Bank credits, to encourage exports—when U.S. firms had to pay double that for loans at home. Moreover, the Russians, by skillfully playing off various exporters, were able in 1972 to get huge amounts of grain at cheap prices, thereby pushing the price of U.S. grains higher and adding to the country's inflation. What does the Soviet Union get from detente? Both sides see

the Russians as gaining techno-

of yegis.

valed this research.

Some tried (so far unsuccessfully)

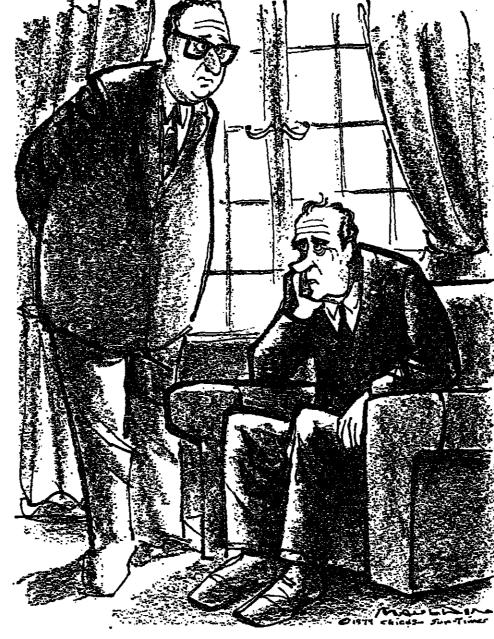

logical know-how in computers. electronics, chemicals and truckbuilding from the West to streamline their economy, Those who boost detente argue that, as a result of this, the Russians are under additional pressure to avoid confrontation since demands are building up at home for a higher standard of living. The dissenters believe that little this technological assistance has been directed to the civilian sector, most of it being used by the Soviet military to improve missile capabilities. Chinese Question

Both sides agree that detente also has permitted the Russians to pay more attention to China and less to the West. But they disagree on whether the Moscow-Washington rapprochement diminishes or increases the chances of a Soviet-Chinese war. The critics say that because détente makes the Western countries less likely to threaten the Russians, it increases the possibility that Soviet military men might seck a confrontation with China.

On the question of who gains the most from détente, supporters of the policy see shared benefits. Both societies have problems at home and in time of peace both peoples will gain. The supporters also argue that an improved international climate must lead to a liberalization within the Soviet Union, a gain for the United States in the sense that increased personal freedom is a 'victory" for Western ideas. Strategically, they say, detente aircady has led to an increase in U.S. influence in the Arab

The critics believe the Russians so far have been the "winners." They argue that nothing fundamental has changed within Sovict society and that in some areas repression seems to have increased. The Russians, they believe, have taken advantage of detente to build up their military

Other, more specific issues also will have to be answered. Some of them: Which side possesses a nuclear advantage, if any, and is a nuclear advantage possible or even desirous when both sides possess such enormous arsenals of missiles and bombers?. Should the United States, with its traditional emphasis on personal freedom, continue cultural and scientific exchanges with a government which places censorship, travel restrictions and other barriers in the way of its scientists and other intellectuals? Should trade however beneficial to the U.S. economy, be made conditional on Soviet domestic changes? Should the United States become involved in a multibillion-dollar project to exploit the natural gas of Siberia. thereby perhaps finding another source of energy but running the risk of reliance on another for-

terests of our two countries are

The talks strongly reinforced impression that the Chinese have a rather realistic view of the geopolitical situation on Eurasian land mass. At the center of Chinese concern is what they perceive to be the expansionist and unreliable nature the Soviet Union. While the Chinese are convinced of their canacity to defend themselves on the basis of self-reliance, they see Soviet policy as in part directed at their encirclement.

Word of Honor

To the Chinese, one's word of honor is more important than formal agreements on paper, and they profoundly distrust the Soviet Union for failing to act with integrity. The Chinese have learned from bitter experience that their treaties with the Russians are of little value, and they value the frankness with which Americans have spoken with bem. I found that while we both could easily identify a wide variety of issues on which we could agree, they also respected my frankness when we identified matters on which we disacreed. At no point did ideology prove to be a hindrance to precise com-

It is clear that the Chinese recognize the importance of NATO and the danger of any immediate withdrawal of U.S. troops from Europe. China's position is that the Soviets are "feinting to the East in preparation for an attack on the West." That is, the Chinese are concerned about

Poll in U.S. Finds Biggest Concern Now Is Inflation

1.509 persons interviewed from May 31-to June 3 named inflation as their chief concern, while only 6 per cent listed the energy

In a similar survey in January, 46 per cent of those questioned listed the energy crisis as the nation's most important probiem. Only 25 per cent of the respondents then named inflation as their chief concern.

Other problems and the percentage of people who listed them in the latest poll as most serious included: · "Dissalisfaction with and lack

gion, 4 per cent.

need for greater unity among the Western allies. They feel deeply that the security of their own area is affected by what happens in the European area, and they are now very forthcoming in

encouraging a strong NATO. Beyond this, the Chinese perceive a threat in Soviet involvement on the Indian subcontinent and in the Persian Gulf, particularly Russian pressure on Iran cerned by what, to them, seems a limited American understanding of the persisting threats to

Pakistan's territorial integrity. Commercial Basis

I was struck by the Chinese spirit of self-reliance-not only in the matter of security planning but also in their handling of foreign trade. The American people will welcome the news that trade with China is evolving on a solid commercial basis-in contrast to trade with Russia.

The Soviet Union, of course, is asking for economic benefits which involve the transfer of sophisticated American technology and a massive infusion of American capital. These transactions are supported by U.S. government credits, which are in turn subsidized by the already hardpressed American taxpayer so that the Soviets can pay a far lower interest rate than he must pay for any loan. Unlike the Russians, the Chinese are not seeking such special U.S. taxpayer-subsidized credits.

Two years have elapsed since the Shanghai communique, issued during President Nixon's visit to pressing on toward new advances in Sino-American relations, including the establishment of resident news correspondents in each country, more substantial programs of cultural and educational exchanges and the settle-ment of the assets issue.

Issue of Relations

On the matter of diplomatic recognition, we should try to reverse the location of our embersy and liaison office in Taipei and Peking. (The United States has an embassy in Taipel and a liaison office in Peking, and a change of this nature would amount to full diplomatic recognition of the People's Re-

public of China.] In short, I believe we should be moving more rapidly than we are toward a closer relationship between the People's Republic of China and this country. This is in our own self-interest, it is in the self-interest of China and above all else, it is in the interest of world peace. We must move beyond contacts between a limited number of personalities to a more institutionalized process and a far wider range of relation-

We must grasp this moment in history-when geopolitical considerations have brought our two countries closer together—to build a web of relations which will promote peace, especially as Chica moves ahead to become a nuclear and industrial power.

Mr. Jackson, the junior senator from the state of Washington, wrote this article for the Los Angeles Times.

Subsidies to Plug the Dike for 2 Years

Eastern Europe's Inflation Stopgap

By Dusko Doder

BUDAPEST (WP), -The countries of Eastern Europe have acknowledged in their current negotiations that the dike they are erecting against Western in-flation will inevitably cave in and that they will be forced soon to increase sharply the prices of raw materials and energy.

But the Soviet bloc nations are determined to maintain their consumer prices at current levels during the next two years through a variety of antiinflationary measures, including large subsidies.

The decision was reported by East European officials and other sources who stressed that consumer price increases were-"politically unacceptable." The explanation of the stand suggests that the Soviet bloc nations want to preclude any political turmoil such as the Polish upheaval sparked by workers riots in December, 1970, against price increases on basic commodities.

Western inflation will thus be imported into Eastern Europe without its effects being passed on to the consumers

For the centrally planned economies of Comecon, the East European economic bloc, this will mean severe distortions in domestic price structures during 1974 and 1975. It will also mean some tough and painful bargaining among Comecon experts who are engaged in drafting the next five-year plan, covering 1876-80 period.

Hungary's Move

A clear indication of initial price changes was given last month when Hungary announced a series of increases in the prices of raw materials for domestic products, rises effective on Jan. 1. Crude oil will double, natural gas will go up by more than 40 per cent, various raw materials in the chemical industries by between 35 per cent and 75 per cent and metals by between 10 per cent and 100

Under the current five-year plan, the Soviet Union is supplying its East European clients with energy and raw materials at prices negotiated in 1969 and 1970. Despite the recent dramatic increases on world markets, the Russians are committed, for instance, to sell crude oil in Eastern Europe at little over 32 a barrel, or about one-fourth of the current market price, through 1975.

Germany, Poland, Czechoslovakia, Hungary, Romania and Bulgaria -get most of their energy and raw materials from the Soviet Union. Hungary gets 90 per cent of its fuel and ore from the Soviet Union. The Russians supply 90 per cent of Poland's crude-oil needs and more than 80 per cent of its iron-ore requirements.

Just what Communist planners intend to do to prevent the increased prices of energy and raw materials from being passed on to their consumers in the long run is unclear. But Hungary's anti-inflationary struggle offers an example of short-term strat-

As outlined by officials in interviews last week, the govern-ment expects to compensate firms for keeping their domestic prices at current levels. The nation's inflation rate in 1973 was 3.5 per cent and the government has announced that

it intends to reduce that figure to 2 per cent this year. A large section of industrial workers was given an 8 per cent pay rise in 1973—and this year municipal and other white-collar workers are scheduled to get raises as weil Sad History

ford to have inflation because of the impact it would have on wage carners, the workers," Janes Fekete, vice-chairman of the Hungarian National Bank, said in an interview. "We have been working very

hard to establish the people's confidence in the forint is unitof Hungarian currency) and we cannot play with that confidence," he declared. He said that private savines have been increasing and today amount to the equivalent of nearly \$3 billion. Hungary's national budget for 1974 is about \$11 billion.

The government this year has allocated \$1 billion to subsidize domestic prices at their present ievels. Auti-inflationary measures include a cut in tariffs on foreign imports, a reduction in subsidies aimed at stimulating Hungarian exports and two revaluations of the forint bringing it down from last years rate of 30 forms for

Trade's Effects

In his view and that of others Comecon is no longer a closed economic system because of dramatic increases in Bast-West trade during the 1 st four years and Comecon governments have to learn how to coexist with nonsocialist económic groupings.

A realignment of the price structure to bring them in line with world aconomic trends is inevitable, according to this view. And Comecon experts have another year shead of them to bargain and work out plans,

It is clear from these discussions with East European economists that the Russians have won agreement from their clients to change Comecon rules so that prices could be adjusted to Moscow's liking in the next five-year plan. But the main point that emerged from a top-level Comecon meeting in Bulgaria two-weeks ago is that no firm agreements about price levels has been made,

Increased price subsidies represent, in effect, a backward step for East European countries. particularly Hungary. But even those economists who dislike the measure see no alternative. They privately hope that the Western inflation wave will subside and things will return to normal

2 Months After Massacre. Tension Lingers in Maalot

The U.S. Economic Scene

A Time to Come to Grips With Inflation in U.S.

By Thomas E. Mullaney

NEW YORK, July 14 (NYT),-The intense pressures in the domestic economy have produced so many fissures in the financial system that the Nixon administration has finally decided to come to grips—publicly—with the whole devastating problem of inflation. It is, in the words of

one critic, "high time."
Whether it was merely a cosmetic gesture, a public relations gimmick or whatever, the fact is that the President brought a blue-ribbon group of the nation's business leaders and economists to the White House last week for a dialogue on inflation and to learn what they thought ought to be done to try to cope with it.

No dramatic announcements or consensus emanated from that lengthy session last Thursday, but seeds might have been sown for some future constructive actions. Unfortunately, labor's voice was high-level discussion, though presumably it will be sought before some expected White House pronouncements on the subject about 10 days hence.

To many observers, it has appeared that government officials have been content to sidestep this dangerous issue in recent months. hoping that, somehow, the nagging problem would eventually evaporate without any new ini-tiatives. International relations seemed to be drawing a much greater priority and higher atten-

Critical Period

But it became clear to everyone -in Washington and elsewhere-that a laissez-faire attitude on the cardinal domestic issue of the day should not be maintained any longer. Pernicious inflation was boring steadily and precariously into the whole structure of the

American economy and the life of the nation's citizens. It was starkly apparent that one of the most critical periods in America's history was at hand.

Soaring interest rates have failed to crest, the bond market has been in a state of chaos, the stock market is gravely ill despite a closing rally last week financial institutions are constantly being drained of their assets, numerous businesses and other organizations are facing very serious economic difficulty and public malaise has

become widespread, A month ago there were some encouraging signs that inflation might be ebbing. Farm prices began to decline, energy costs seem-ed to be stabilizing at their highly elevated level, bank-loan demand short-term interest rates actually began to recede a bit. But it appears to have been a false signal. The storm is not over by any means.

Yet there are still some reasons for hope, Wholesale prices in June did not rise as sharply as in the previous month. The continued sluggishness in the economy should help to ease inflationary pressures, the dollar has appreciated and the price of gold has declined sharply in recent months. But will these trends be

sustaines? A look back at the cost-of-living index for the last 20 years reveals the extent of the nation's current inflation problem. It was no great concern until the middle

accented to be flattening and some of the last decade, when accelerated commitments in Vietnem (without adequate measures to finance them) started the United States on a progressively worsening inflationary path, except for a fairly brief period after the start of the economic-controls program in August, 1971.

Following are the annual rates of increase in the cost of living since shortly after the Korenn

1964 1.2 It would be inaccurate to place blame for this acute step-up in the nation's inflation rate wholly on the administration's shoulders A free-spending Congress must share part of the responsibility. And there has been an almost incredible confluence of other forces, domestic and international, that contributed to the acceleration of inflation in this

country and abroad. In recent years, there has been a huge simultaneous build-up in demand for food and goods of all kinds throughout the world, putting severe pressure on prices, particularly for those commodities in short supply. This surge in demand was the product of greater affluence in some parts of the world and the desire by many political leaders to provide a better standard of living for their

There were also severe crop failures in a few countries, distorting commodity trade patterns (Continued on Page 9. Col. 4)

New York Stock Market

NEW YORK, July 14 (NYT).-The stock market opened the week the dumps and closed soaring. The nation's credit and money tuation was the key to both good and bad performances.

The Dow Jones industrial average plumineted 21.10 points last Monday because of the Federal Reserve's report that bank loans had almost doubled in the previous week to \$1.09 billion. This put the Dow at 770.57, its lowest level since Nov. 23, 1970. Other major indicators also had to reach back to 1970 to find equivalent lows. Stock prices shuffled back and forth during the middle of the

week but with a bearish tone predominating.

After Thursday's trading close, the Federal Reserve reported that bank loans had expanded only \$92 million in the latest week. The market took this as a signal to make Priday its strongest day since last May 24. The Dow surged 27.61 points, closing at 787.23, as sales totaled 17.77 million shares. A report by the government that wholesale prices had made their smallest gain since October also helped fuel the advance.

Nonetheless, the Dow was down 4.54 for the week as a whole. In the five trading sessions 76.652,204 shares changed hands, making it the busiest week since the week of March 11-15, when 86.812,260 shares changed hands.

Last week again indicated that the stock market was receptive to good news, particularly regarding the credit situation. The big question seems to be whether there will be a large enough flow of good news to maintain a forward momentum.

(Continued on Page 9, Col. 2) Saids In Net 1905 High Low Last Chige

NEW YORK (AP) - Weskly Over the Counter Industrials siving the high, law and last bid prices for the week with the ret change from the gravious week's last bid prices. All questations supplied by the National Association of Securities Designs Inc. are not actual transactions but are representative inflanteaire prices at which these securities could have been sold. Prices do not include retail markups markdown or compission.

| Description | markdown or commission. Sales supplied by NASD. Saigs in Low Last City

World Bank Accords Aid Boost to Egypt

CAIRO July, 14 (UPI) -The World Bank has agreed to intreuse its annual aid and loans to Egypt from \$20 million to \$200 million the Middle East News Agency said today.

The money will be used to finance property for respending the

nance projects for reopening the Suez Canal, expanding fertilizer factories and modernizing the raliroads, the agency said,

Continued From Page 7 14 3 4 per cent for one-month ed in some issues.

On the other hand, Goldman, Sechs, which will be managing the U.S. operation for EDF, believes commercial paper can be placed for one month at between 12 and 12 1/2 per cent on a discounted basis which would represent a significant saving for EDF on its interest charges.

The average maturity of commercial paper is 30 days, but Goldman officials hope to fan enough demand for the notes to stretch the maturities on the EDF notes at least up to nine mouths and is prepared to it the needs of individual institutional investors by dating the paper for 67 or 93 days, for example, at the request of the investors. The U.S. firm is also proposing to make a market in these notes, assuring investors of the opportunity to sell the notes before maturity if they

so desire. Meanwhile, the Europoud market remains paralyzed by the high short-term interest rates Straight Eurobonds, denominated in dollars and deutsche marks. were off sharply last week. The

MODARCO S.A.

(Modern Art Collection S.A.)

Increase of the authorized capital The special general meeting of shareholders held on July 8, 1974, in Geneva, decided to increase the authorized capital from 10 to 20 million U.S. dollars and to amend the related articles.

\$1,000 face-valued bond register-

However, given the recent success of the issue denominated in Canadian dollars as well as the good reception investors gave the issue for the Austrian highway authority, bankers are planning to launch the first Eurobond denominated in Austrian schillings.

There is a desire, bankers reason, for currency diversification in medium-term instruments. The achilling has been behaving like a strong currency, moving in parallel with the Swiss franc, and bankers think there is sufficient. appeal to launch a schilling loan. The borrower reportedly will be an Austrian state bank, offering 250 million schillings (about \$15 million) in eight-year notes at a coupon of around 9 1/2 per cent -in line with the recent DM note:

U.S. Inflation At Crisis Point

(Continued From Page 71 and pushing prices of farm products sharply upward; two devaluations of the dollar in three years and other currency adjustments, and expansionary fiscal and monetary policies in the United States and elsewhere to expand growth and hold down un-

In this country, particularly, everyone is now paying the price of excessively liberal spending and credit policies in 1971 and 1972 before the election—to keep the economy moving upward after the mild recession of 1969-70

In an address to a business group last week before his departure for the Middle Bast, Secretary of the Treasury William Simon very deftly pinpointed the reasons for the current "horrendous rate" of inflation in the United States He said the American people and the government have de the political decisions that triggered big price increases.
"We have increased government

spending faster than we have been willing to pay for it through taxation," Mr. Simon said. The nation has also created too much money and new credit "so that more borrowing and investment have taken place than could be financed out of savings," he

added Noting that the demand for goods had been pushed beyond the nation's ability to produce them, the Treasury secretary summed up the situation with an apt phrase that many parents have used when surveying uneaten food on their children's plates: "Our eyes," he said, "have been bigger than our stomach.

To dampen the clamor for so many goods and services the Federal Reserve Board ought to be curbing credit more directly and more forcefully than it has, It has been relying on a tightmoney policy—high interest rates to try to moderate the nation's appetite for credit, but that policy has largely failed.

Bank loans have risen to new silent. In past periods of surging Why not a public pronouncement

Polish Woman Runs to Record

AUGSBURG. West Germany, July 14 (AP).--Krystyna Kasperczyk of Poland set a world record yesterday in the women's 440-meter hurdles, clocking 56.51 seconds during the Poland-West German track and field meet.

Danuta Pieczyk of Poland had the previous record, 56.53, set last August in Warsaw. "I think there's still much

room for improvement in this event." Kasperczyk commented after her record run. "By the time of the 1976 Montreal Olympics, the world record should be around 52 seconds. Poland led West Germany,

163-157, in combined standings after the first day of the meet at Augsburg's Rosenau with 7.000 spectators watching in humid weather.

More Victims in Sight in NFL Strike

NEW YORK, July 14 (NYT).--The National Football League players' strike which has already claimed the annual College All-Star game as one of its victims. heads into its third week with no signs of a settlement.

Moreover, there are indications that the casualty list may be expanded. The July 27 Hall-of-Fame game in Canton, Ohio, matching the Buffalo Bills and St. Louis Cardinals, coul be the next victim. Representatives of the striking

whether they want to try again. At issue basically, are the socalled "freedom demands." Players vent to see an end to the option clause, the reserve clause and all the other clauses that prevent them from playing wherever they want to. Owners say the demands are excessive and will ruin the league.

Unitas an Exception

Meanwhile, players, wearing T-shirts emblazoned with a hairy fist and the slogan: "No Freedom, No Football," set up picket lines at training camps across the country while clubs stocked up with rookies and free agents. Most of the veterans honored the picket lines, but there were exceptions.

In San Diego. Johnny Unitas, the venerable quarterback. whisked into the Chargers' camp and declined to talk with pickets. 'If they want to pay my salary I'll toin their strike," he said. In Nev- York, a Jets' defensive

tackle, Steve Thompson, reported to camp, claiming: "The Lord told me to honor my contract." In Huntsville, Texas, a Houston linebacker, Steve Kiner, defied picket lines and branded striking players "a bunch of crybabies." O J Simpson and his Buffalo tean mates got some support outside the Bills' camp. They chartered four buses to bring 125

Miss Lella Lombardi of Turin, is the first woman ever to comnete in a Formual-One race in Britain. She will have to outclass 10 of the world's top male drivers in practice sessions to qualify as a starter.

Borg Tops Panatta In Final at Sweden

BAASTAD, Sweden, July 14 Reuters .- Sweden's 18-year-old tennis idol Bjorn Borg won his first Swedish Open beating Italy's Adriano Panatta 6-3, 6-0, 6-7, 6-3, today in the final.

Panatta rallied strongly in the third set and almost turned the game in his favor after Borg threw away three match points and went on to lose the tieyoungsters to the scene to help with the picketing.

Joe Robbie, the outspoken owner of the Minnu Dolphins, raised the possibility that the entire season could be abandoned, "If the players wipe out the preseason, then we can't afford to pay each player for the regular season," he said. "This is no longer a strike in the ordinary sense. It is now a mission by the players association to search and

destroy."

In Wilmington, Ohio, angry fans made plans for picket lines of their own. They said they would picker in protest against Cincumati players if the veterons set up picket lines outside the Bengals camp.

"I'm fed up," said a fan. "Everyone I know is led up. Strikes are for people who haven't sense enough to take care of them-

U.S. Yachts Split 2 Races in Trial To Find Defender

NEWPORT, R.I., July 14 (AP) -Courageous and Intrepid split two races resterday as the America's Cup observation trials for American 12-meter yachts began on Rhode Island Sound.

In another race yesterday, Southern Cross, the Australian contender, was sailed by John Cuneo to a one-minute victory over her trial horse. Gretel II, in

a race off Block Island Saturday. Gretel II led by 1:55 at the windward mark but Southern Cross, which has an aluminum most, passed its rival on the first reaching leg. The Australians are having trials to see which yacht will face a French contender for

the right to meet the Americans. Courageous came from behind in the first race and won by seconds over a 12 1.2-mile triangular course. The race was sailed in a southwest breeze averaging five to seven knots. Intrepld led all the way in the second race and won by 48 seconds. That race was over a 15.2-mile course which included

three legs on the wind and two off the wind. Intrepid, which defended the America's Cup in 1967 and 1970, outsailed the Courageous, a new aluminum boat, on the windward legs. But Courageous proved faster off the wind, especially in very light going.

HOW TRUE

A Skeptic's Guide to Believing the News By Thomas Griffith. Atlantic-Little, Brown. 202 pp. \$6.35 Reviewed by Martin Arnold

these have done, they certainly have created a new interest in the that it is the journalist's job to practice of journalism. And a be a sort of super tape recorder new interest, too, in journalists, or camera, mindlessly setting who now may seem either heroes down the words of the great and or villains, depending on your near great, or recording happenpolitics. Along with the interest, quite naturally has come endless writing on the subject. Some of it, like Woodward and Bernstein's

"All the President's Men" and Timothy Crouse's "The Boys on the Bus," has been excellent and important. But most of it has been bad. Either it praises the press beyond its worth, or, worse, it's self-conscious and apologetic about the press's role in Watergate and about the press's defense of the First Amendment in the courts. It is as if maybe the press itself believes that all the President's men are right, and the bearer of

bad tidings somehow does deserve to be punished. Thomas Griffith, former senior staff editor of Time Isc. publications and the editor of Life in its last years, has written a book that is an exception to the general run of press books. Actually, it's two books in one. The first is a commonsense approach to the press and its problems. The serond, through a rather trite device he calls "Memory Cell," is personal reminiscence. Woven through this part are stories of his own newspapering in Seattle his own newspapering in Seattle and an excellent profile of the late Time founder, Henry R. Luce, one of the few profiles that makes the great publisher a human being, not a caricature.

Most important, however, is his examination of the press, both of newspapers and television. Griffiths has set out to show how journalists work. Once that is understood then it becomes a relatively simple matter for the newspaper reader or the television viewer to evaluate for himself the fairness and completeness of the news he is receiving.

And for those interested in Time-

Life trivia, there are plenty of

At any rate, before one swayed by remembrances of former Vice-President Spiro Agnew heaping abuse on the press, one should understand

Solution to Friday's Purale

WATERGATE and the Nixon what journalism is all about, Por ATTERGATE and the Mison years, for instance, an accepted administration. Whatever else years, for instance, an accepted truth in this country has been ings exactly as they happened, No value judgment allowed. Just present the straight, hard facts, and the readers will make up their own minds.

It is this thinking. Griffith says, that produced the McCarthy era, when most of the press printed the late senator's every lie because, after all, he said it, didn't he? Writes Griffith: "An unaware bias, or a bias denied, is the worst kind. It suggests a lack of imagination, and usually goes with the kind of journalism that isn't doing enough to serve its readers."

What is lacking in the whole ress-Nixon confrontation is an adequate spokesman for the press. Griffith is that, for he explains, perhaps for the first time, the difference between a reporter's bias and the slanting of the news. It is for instance true that most correspondents covering the last presidential election campaign favored Scn. George McGovern, As Griffith points out. Agnew thought it enough to label the journalists liberal in order to establish their untrustworthiness.

But the reality was that the liberal group of reporters was the very same that went "in hot pursuit" of McGovern's rather unsavory handling of his running mate's psychiatric problems, and it was that story more than any that insured the President's landslide. Fairness rather than blind objectivity is the criterion of the

journalist's performance.

The subtitle of the book is "A Skeptic's Guide to Believing the News " So while Griffith explains the press he also is a critic. He is against advocate journalism, for instance, because he finds that it pays little herd to securacy. Of television, he says. "What television shows you may be true as a photograph, while talse in what it suggests." At one point early in the book Griffith says his "theme is how journalism affects the times it sets out to record." He succeeds admirably in making the reader think about journalism.

The bonus to the book, and a considerable one it is too, is Grafith's ability to use his Luce profile and his own reminiscence; not only to make his point about contemporary journalism, but also to keep the book from brcoming heavy and pedantic, which too much of the writing about immalism is

Paul Keres, the Estonian grandmaster, once remarked that he preferred to play in a style opposite to that of his opponent Against positional maneuverers, he would draw on his remarkable talent as a tactician; against tacticiaus,

he would show off the po-sitional side of his play and-his skill in end games. In so modifying his play, Keres claimed that he was satisfying his bent for variety and colorful confrontation, and there is no doubt that these objectives were impor-tant for him. Still, is it merely a coincidence that his self indulgence contributed mightily toward the very pragmatic purpose of win-ning games? The foxy Keres has always

been quite properly admired for throwing his opponents into the situations they like least. There is no doubt that is good strategy, although itdemands that one develop intimate acquaintance with the predilections of hundreds of opponents.

Right Up His Alley

However, even if one should decide that carrying out Keres's positive program is too ambitious a task, it is foolish to grant the opponent the kind of position you know he handles better than know he handles better than you do. Yet that is what the seasoned campaigner Viktor Korchnol did in the fourth game of his semifinals match with Tigran Petrosian in Odessa, Not surprisingly, he lost, although he came back to the ten fifth game for a 3-1 lead with one draw. 3-1 lead with one draw, Instead of steering the fourth game into the tense

channels of sharp tactical play in an unbalanced position, Korchnol gave Petro sition, Korchnoi gave Petro-sian just what he wanted a quiet symmetrical forma-tion. Perhaps Korchnoi ex-pected 10 Q-N3, which had-led to a draw in Benko-Fischer, U.S. championship, 1962-3, but Petrosian's 10 B-B4 proved harder to

Korchno's flag dropped for a time forfeit as he was making his 39th move, but in any case he had no recourse against 40 R-Ne, winning the OBP while keeping the knight hopelessly out of action

By Joseph Durso

WESTBURY, N.Y., July 14

(NYT),-Delmonica Hanover last

night won the Roosevelt Interna-

tional for the second straight year

as a flurry of mishaps hit the European entries in this rich trot.

French contender Amyot went

lame while warming up and was

scratched. One of the Swedish horses, Lime Rodney, broke stride

at the start and finished sixth.

And the other Swedish racer,

Knabe, pulled up after two turns

about the track and didn't even finish the \$200,000 race.

But Delmonics Hanover, one of

the strongest favorites in the 16-

year history of the International

hand from fortune to repeat her

victory of last season.

apparently needed no helping

She started in the No. 3 post

position, went straight to the lead, and held it for the 1 1 4

miles, scoring an easy half-length victory over Keystone Gary of Canada, with Italy's Dosson third

Hard to Hold

man said, of the 5-year-old win-

ner. "I was really holding her tight til the last turn, then I let

her go. I did most of my work in

the winner's circle—holding her when the fireworks went off."

Delmonica Hanover, a success

story, cost Delvin Miller, co-own-er and trainer, and his colleague,

Arnold Hanger, just \$5,000. Then she reached the big-time last year

by scoring an upset in the Inter-

national (and returning \$22,20 to

her \$2 to win backers', After that:

three victories in seven starts this

year, including the Prix d'Amé-

rique at Vincennes in Paris, and

tente apparently ends at the pari-

mutuel window, because the crowd

of 37,407 made Delmonica Han-

over a powerful choice. She paid

last night.

"She was fresh and kind of rank tonight," driver John Chap-

and France's Axius fourth.

Australian Girl Sets 1,500 Mark

freestyle record last night, in what was intended simply as a warm-up swim for upcoming U.S. meets.

She clocked 16 minutes 43.4 seconds to slash 48 seconds off her previous record, set here last January

The 14-year-old said after the time trial at Sydney University pool that "I didn't really set out for a fast time, but the pool was great and I just kept on going. The chlorine hart my eyes a lot and I'm a bit tired, but it's nice to break the record."

About 100 people saw Turrall lower the record-

Last January, she set records for the 800 and 1,500-meter swims, then won a gold medal for the w have won all 18 matches on 400 meters at the Christchurch Commonwealth Games.

Open by four strokes over Peter Oosterhuis and by five from Jack Nicklaus.

"I should have taken the week off before the Open, and gone to Mamaroneck, N.Y., where the course is, but I was sponsoring a young black African golfer and he was given an exemption for the Philadelphia Classic. I could not be rude by not turning up." Player's victory yesterday was his 99th and he hopes he'll reach

No. 100 in storybook fashion by winning the PGA, a title he first won in 1962 and again in . "I have found the pattern," he

said, referring to his remodelled swing. "I don't get uptight when I hook these days. Still, I don't hook all that much now." Player now has eight major championships, to trail Nicklaus, Bobby Jones, Walter Hagen and

Ben Hogan on the all-time list. Nicklans leads with 12 titles. But I tell you it was agony leading through all 72 holes. I was tight in the gut. It was

"I guess it's because the leaders go out last. You have time on your hands waiting," he said. Player, 37, a rancher in Johannesburg, said he'll continue to play golf as long as he keeps

"I enjoy my golf now, something I had not done for the last seven years. But as soon as I know I can't win any more, I'll stay home and concentrate on my farm and in helping youth." Player was the only man in the British Open to tame Royal Lytham and St. Anne's 5,882-yard par 71 for 285. Nicklaus had 71 by winds from the Irish Sea for most of the four days. A record total crowd of 90,625 saw the

Player had rounds of 69, 68, 75, 70 for a 2-under-par 282; Oosterhuis, a Briton, had a final-round par 7 for 286. Nicklaus had 71 for 287, and Hubie Green, 71-288. Player's winning margin was the largest since 1964 when the late Tony Lema beat Nicklaus by five

With player starting birdie-birdie and Nicklaus unable to get his customary last round charge off the ground, the South African, playing aggressively, was in

He made a pair of bogeys at Nos. 4 and 5, but put a lock on the championship at the 486-yard par-5 sixth when he took a three. He was on the green in two and heled a four-footer for the eagle. Player faltered on the back nine, boggying three of the last

four holes to come in with a 38, but with his challengers also floundering, there was never any doubt of the table

Nicklans ruined his chances with three straight bogles on the back nine.

Merckx Sets Record For Stage Victories

SEO DE URGEL, Spain, July 14 (UFI) —Belgian Eddy Merckx outmaneuvered his chief rivals through a series of dangerous curves today to win the 15th stage of the Tour de France bi-cycle race and maintain his 2-minute 5-second lead.

It was Mercky's 26th stage vic-tory in five tours and set a record for most Tour de France lap victories in a career. Battling in the final sprint were 15 of the current leaders, including secondplace Gonzalo Aja of Spain.

Ties for Lead After 54 Holes BETTENDORF, Iowa, July

Sam Snead, 62,

14 (UPI).-Sam Snead, at 62 seeking his first victory on the pro golf tour in nine years. yesterday fired his third straight sub-par round, a 2under-par 69, to grab a share of the lead in the \$100,000 Quad Cities Open.

Snead, whose last victory came at the 1965 Greater Greensboro Open, tied tour rookie Mark Hayes, who carded a 5-under-par 66. They were at 10-under-par 203. Snead recorded four birdies

the last on a 15-foot putt on the par-5 18th hole-to tie Hayes. "I just looked at the situation on the last hole and said. Lord, Ill take a five and put the ball in my pocket." sald Spiead. But I had the chance for the birdie, and by golly, it fell in."

Snead already owns the PGA record of being the oldest player to win a tournament, winning at 52 in 1965,

Russia Beats U.S. for Title In Basketball

SAN JUAN, Puerto Rico, July 14 (AP).—The Soviet Union defeated the United States, 105-94, today to win the world amateur basketball championships.

The victory gave three teams-Yugoslavia, the United States and the Soviet Union—each six victories against one defeat. But the Russians, who lost to Yugoslavia, had a better point spread against

Yugoslavia took second place and the United States, which beat Yugoslavia yesterday, took third

The United States today trailed, 83-80, when Luther Burden made two foul shots with 7:42 left to play, but the Russians secred the next two baskets. The United States never got closer than five points after that, as the U.S. lineup couldn't handle the taller Russians.

For the Russians Alexander Salnikov finished with 38 points. Alexander Belov with 16, followed by Modestas Paulaskas with 11 and Sergei Belov with 10. Luther Burden had 22 points, Gus Gerard 16 and John Lucas 18 for the United States.

Earlier today, Yugoslavia beat Spain, 79-71.

Pirates, Reds Fight Way to Split of a Twinbill

PITTEBURGH, July 14 (UPI). -Al Oliver drove in two runs with a sacrifice fly and a single to back the combined four-hit pitching of Bruce Kison and Dave Giusti as the Pittsburgh Pirates snapped a five-game losing streak with a 2-1 victory today in the nightcap of a doubleheader. The game was delayed for 10 minutes when a fight erupted between the

Tony Perez's three-run homer carried the Reds to a 3-2 victory in the opener.

Players from both benches and bullpens emptied onto the field after Kison was hit by a Jack Billingham pitch in the fourth inning of the second game. Several scuffles started, and after order had been restored, Reds' manager Sparky Anderson, Reds' reserve outfielder Andy Kosco and Pirates' right fielder Ed Kirkpatrick were ejected.

Kison had earlier been warned by plate umpire Ed Sudol after he threw close to Dave Concepcion in the second inning. The Pirates also won the game

Kusick with the winning run.

Negative Thinking

By Russell Baker

drawer at our house which has not been opened for years. Some years ago, all of us tacitly agreed that we would simply not open the drawer

anymore, Its contents were quietwithout a word being said, sealed out of our lives like friends of long ago who have drifted away on the eddies of life and become

Baker

strangers. They were of a time that had passed. What the drawer contains are snapshots. A zillion snapshots. I opened it the other day and hundreds of them came tumbling out. They were terrible, most of them. Out of focus. Double exposures. Overexposed. Under-exposed. Fading away.

And the subject matter. What kind of person could have thought it interesting to photograph a 1956 Chevrolet parked at a hotdog stand? The answer is painful. Here is a blurred black cat skulking under a red metal lawn chair; a close-up of what appears to be a small fish tank but might be the underside of a sink: a rowboat at the edge of what could be either a lake or any empty parking lot.

We used to take these snapshots with a zeal that must have warmed many a heart at Eastman Kodak. It was considered important to preserve your life's great moments so you could relive them in the serenity of your dotage, and I suppose this is still done by persons of a certain age, some of whom may even take good pictures. It is a mistake.

Looking at these people stand-ing around in oceans, having their diapers changed, blowing out birthday candles, gazing at the Tower of London, cutting the wedding cake, dozing at the New Year's Eve party—one sees that they are all wrong, even on the rare occasions when they are in clear focus and well lighted.

The men have too much hair and are too lean and hard. The women's eyes lack wisdom. The

Swiss Plan to Ration Electricity in Winter

BERN, July 14 (UPI).-The Swiss government said that it plans to ration electric power this winter to cut consumption by 10 to 20 per cent.

Officials said rationing plans ar: being made because water reservoirs are at a low level, the nucleur power plant program is ports are restricted because other

Restrictions are expected on the use of electric heating systems, air conditioning, private saunas

NEW YORK.—There is a secret old people look middle-aged and dynamic and the babies look so alarmingly alike that it is hard to tell one from another.

You remember most of these people well enough to know they never, never looked like these representations in the snapshots. Or did they? A sad possibility, that. Too sad to be acceptable, regardless of the photographic industry's claim that the camera doesn't lie. These are not life's great mo-

ments preserved, but only life embalmed, all the juices drained, the glory gone to dust. The nicture of an arrow snapped in flight, frozen forever against the sky, conveys nothing of this great moment in the arrow's existence: and it is just as useless to try to capture life in the frozen instant of the camera shutter's

Fine photographers who are artists occasionally succeed; but most of us, when we get behind the camera, are doomed to be embalmers. What we can do, however, is take great pictures in our heads and not only take them, but store them so that they improve with the years.

###

We can add color, movement. emotion, feel, taste, sound and even smell. What's more, as the years go by, we can, and usually do, edit and improve them. I have one of these snapshots taken years ago of some hollybocks in my grandmother's yard. Not only does it show the pink of the flowers, in tints at least as lovely as they were on that distant summer day, but it also con-tains the incredible blue of the sky-sometimes the sky is filled with glistening cumulus clouds, other times it is the purest blue -as well as the hum of a bumble bee, the distant rumble of a threshing machine, the smell of wild roses on the fence, the purple outline of the mountains in the distance and, behind me, for this camera can also photograph through 360 degrees, the lordly porch of my grandmother's great house.

This is a splendid snapshot. Am I to believe that this is the way it really was, or should I accept this more recent camera version which tries to tell me that my grandmother's house was only a small gray dilapidation and her front yard a small plot overgrown with weeds?

So we put the cameras away after a while and closed the drawer. I opened it the other day only because of a momentary urge to nesten things up by sorting out the pictures and throwing away all but a few.

The job would have taken all day and I quit after 20 minutes. behind schedule and power im- An entire day spent with pictures that treat people as those snapnations are suffering from the sbots do would have been in-oil crisis.

sbots do would have been in-tolerable. So I went to the back yard, sat down, and took some beautiful scenes of the sunlight filtering through the elm tree

THOSE CRAZY FLYING MACHINES - The Wright Minneapolis in four hours and two stops for gas. He Brothers didn't have anything on this brave soul who built the thing himself and is probably the only one made the 150-mile flight from Two Harbors, Minn., to who would dare fly it. He calls it "Breezy." It is.

A British Institution Reveals Its Names

By Bernard D. Nossiter

LONDON (WP:-The Times Laterary Supplement, one of Britain's most respected and mustiest institutions, has broken with tradition: It is now putting by-lines on its book

In country vicarages, where the gray, unchanging face of the TLS has had an almost biblical authority for 72 years, the change is taken as another signpost of a decadent age. "The essential virtue of anonymity is that it encourages objectivity," a reader sternly wrote. "The class of men who have written throughout the years for TLS have been con-

This is a most precious characteristic which I deeply regret to learn it is not to be your policy to encourage."

But for John Gross, the formidably bright erudite journalistacademic who has just become the weekly's fourth editor, signed reviews are only one of several changes he plans to give the

cerned primarily with the truth of what they were saying.

TIS an impact equal to its respectability.

Nearly everyone who writes in Britain reads the TLS, largely for its encyclopedic range. In a typical issue, say the one of last Sept. 14, 71 books are reviewed. There is a 3,000-word critique of the limits-of-growth school and pieces on a new edition of Dante, a Clement Greenberg book on art, Graham Greene's "The Honorary Consul," "Metternich und Die Frage Ungarns," "The Library and Muniments of Ely Cathedral," and "Sex and Marriage in Utopian Communities."

A Clearinghouse

As Mr. Gross says, the TLS has been a place where "serious books could expect a serious review, a clearinghouse for academic publications where coverage is the uniquely distinctive quality.

"I am not proposing to change this, but shift the emphasis. TLS is a great purveyor of information, though in some ways, it has been a staid and dusty institution, an annex to the

At 39, Mr. Gross's own academic credentials are impeccable. He has taught English at London University, been a fellow of King's College, Cambridge, and written a much-praised history of British reviews, "The Rise and Fall of the Man of Letters."
His own book, however, barely mentions the TLS and conspicuously omits it from a list of other journals, also founded in the Edwardian era, that became literary forces in Britain.

its reviews have been dull and badly written. It has often neglected or been condescending toward significant developments in the arts. It will publish the definitive piece on

Picasso's cubism decided that it "is merely a tiresome effort to escape from the commonplace by means of a formula."

Mr. Gross has already begun to find brighter and more topical articles. A recent issue has a sparkling review of Tom Stoppard's new play, "Travesties," written by Richard Eliman, the Joyce biographer. A front-page headline quietly boasts of letters from Mary Renault and F. W. Bateson.

Despite this new emphasis on personality, Mr. Gross insists that he will not turn the TLS "into a flashy, vandeville show." Some of his donnish readers think this is an apt description for The New York Review of Books," a paper Mr. Gross admires and for which he has written.

He intends to keep that definitive piece on Croatian poetry, demanding, however, that it be lucidly written "for the general reader." But he will also find space for the lively arts, for articles on television, the West End theater and journalism. From its beginning, the TIS has enjoyed a following in the United States, drawn in part perhaps by the (anonymous) reviews of Dennis Brogan and Henry James. But the American audience has fallen off and the paper now sells only about

10,000 of its 38,000 copies there.
"I want to mend bridges with America," Mr. Gross said, "by covering more subjects people want to hear about, by bringing in more American contributors."

Seduction List

"I have jotted down an ideal list of those I would like to seduce," he said. But he will not seek names for names' sake, adhering to the TLS tradition of finding a reviewer for a particular book rather than the other way around.

He is sensitive to the arguments that imposed anonymity on TLS reviewers for nearly four generations. "It is supposed to insure fair-mindedness and an absence of exhibitionism. It focuses attention on the review, not the reviewer."

The unsigned review also enabled a young academic to discuss uninhibitedly the work of an older colleague, no light matter in the tightly knit world of British universities where promotion often depends on the good will of a few established men. But Mr. Gross is convinced that the case for signed reviews is overwhelming. "There is a moral argument," he said. People ought to be accountable for what they write.

"If you risk exhibitionism, you save yourself the fends and rendeltas that were conducted under the clock of anonymity. This paper should not have a political line, but keep open house for the left, center and right. But a political piece should be identified by its author. I have a responsibility for

"The signed review will also bring us people who would not otherwise write for TLS.

"Finally, it makes for greater liveliness."

responsibility for everything he says.

Candidate Figures It Helps to Be Crasy

The former James L. Gron, 2 Milwaukee used car dealer whose name has been legally changed to Crazy Jim, will be running for governor under the new name this November.

Crazy Jim's name change created some confusion at Milwankee County Circuit Court. Your first name is going to be 'Crazy' and your last name is going to be 'Jim'?" Judge

Leander J. Foley asked. "Correct," replied Jim, noting that he operates a firm called Crasy Jim Motors.

Besides the used car business Crazy Jim, 40, operates a fruit stand in south Milwankee and promotes demolition derbies He will file as an independe in the Wisconsin gubernatorial race with a platform calling for legalizing gambling and a state

lottery.
State election administrator Lee Fahey said he knew of no regulation barring the name. "If that's what he wants to be called," said Fahey, "I guess we'd have to put it on the ballot." . . .

Jean Sutherland returned toher home town of Sydney Seturday night for the first time in nins years and was wildly ap-plauded by 1,500 fans for her performance in "Tales of Hoffmann." Miss Suiberland, who started her career 25 years ago singing at weddings for \$6 a performance, opened the city's opera sesson before an andlence that paid up to \$500 a seat. She and imsband Bichard Bonyage were made honorary life members of the Australia Opera Company after the show.

Vice-President Ford celebrated his first birthday yesterday with his family in Washington after returning from San Clemente, Calif., where he had talks with President Mixon Saturday. * * *

Pone Paul VI, looking rested and recovered from an attack of arthrosis in his right knee, made his regular Sunday appearance to address a crowd in St. Peter's Source. He is expected to leave at midweek for his summer residence of Castel Gandolfo, south of Rome.

Capt. Mark Phillips, Institute of Princess Anne, was injured Sat-urday while riding in a show-jumping competition at Tethury. England. Phillips pulled up in pain, apparently with a pulled back muscle, after clearing an obstacle on a third attempt after his horse, Barleburn, twice balked. He completed the course in obvious discomfort and was later driven to his parents' home not far from the course. * * *

David Welper, 46, a producer of documentary films, and actress Gleria Hill, 33, have been married on the island of Hawaii. Wolper's three children by a previous marrisge attended the ceremony.

Czech author Ota Filip has emigrated to West Germany with the permission of government

Joan Sutherland ... homecoming

authorities, friends of the writer said in Munich Filip, 44 report-edly came to Munich early last week with his wife and two thidren. He spent 15 months in prison for protesting the Soviet avasion of Czechos 1968. He was allowed to drive out of the country and take part of his library and manuscripts. His novels include "The Cale on the" Street to the Cemetery" and "A Fool for Every City." il 🧀 🕶 -

Four policemen and a police clerk in Coral Gables, Fig., have been ordered to stop living with people of the opposite ser to whom they're not married Three patrolinen and a woman clerk agreed—but there is one holdont, Jeffrey Vance. He has been and pended from the force. I have no other choice but to fight. Vance said. "I feel that the chief is wrong, that the chy's attitude is wrong." Police chief William Kimbrough 67, said that the five were involved in "conduct un-becoming a Coral Gables police employee," adding that "Any-thing that comes to my attention that can cast a bad image on the Coral Gables Police Department I consider it my duty to investieste." He characterises such living arrangements as fliegal and im-

Meanwhile, in England a group of militant salmal lovers staged an attack on a factory in Huntington, setting fire to two trucks helonging to the Cara-worth company. A spokesman for the group, calling fiself the Band of Mercy, said the raid had been made because Carsworth was breeding animals for use in laboratories. "We are determined to stop ill treatment and persecution of animals by humans, the spokesman said adding that the group was preparing to widen its activities, England. Last month the Band of Mercy claimed responsibility for setting fire to a boat used by seal hunters and also admitted starting a fire at a

pharmaceutical company where experiments on live animals were being carried out. -SAMUEL JUSTICE
